following the initial notice enjoining its displacement.

(d) After the effective date of this rule, MVPDs shall include a provision in all service contracts entered into with MDU owners setting forth the disposition of any home run wiring in the MDU upon the termination of the contract.

(e) Incumbents are prohibited from using any ownership interest they may have in property located on or near the home run wiring, such as molding or conduit, to prevent, impede, or in any way interfere with, the ability of an alternative MVPD to use the home run wiring pursuant to this section.

(f) Section 76.804 shall apply to all MVPDs.

[62 FR 61032, Nov. 14, 1997, as amended at 68 FR 13855, Mar. 21, 2003]

§ 76.805 Access to molding.

(a) An MVPD shall be permitted to install one or more home run wires within the existing molding of an MDU where the MDU owner finds that there is sufficient space to permit the installation of the additional wiring without interfering with the ability of an existing MVPD to provide service, and gives its affirmative consent to such installation. This paragraph shall not apply where the incumbent provider has an exclusive contractual right to occupy the molding.

(b) If an MDU owner finds that there is insufficient space in existing molding to permit the installation of the new wiring without interfering with the ability of an existing MVPD to provide service, but gives its affirmative consent to the installation of larger molding and additional wiring, the MDU owner (with or without the assistance of the incumbent and/or the alternative provider) shall be permitted to remove the existing molding, return such molding to the incumbent, if appropriate, and install additional wiring and larger molding in order to contain the additional wiring. This paragraph shall not apply where the incumbent provider possesses a contractual right to maintain its molding on the premises without alteration by the MDU owner.

(c) The alternative provider shall be required to pay any and all installation costs associated with the implementation of paragraphs (a) or (b) of this section, including the costs of restoring the MDU owner's property to its original condition, and the costs of repairing any damage to the incumbent provider's wiring or other property.

[62 FR 61033, Nov. 14, 1997]

§ 76.806 Pre-termination access to cable home wiring.

(a) Prior to termination of service, a customer may: install or provide for the installation of their own cable home wiring; or connect additional home wiring, splitters or other equipment within their premises to the wiring owned by the cable operator, so long as no electronic or physical harm is caused to the cable system and the physical integrity of the cable operator's wiring remains intact.

(b) Cable operators may require that home wiring (including passive splitters, connectors and other equipment used in the installation of home wiring) meets reasonable technical specifications, not to exceed the technical specifications of such equipment installed by the cable operator; provided however, that if electronic or physical harm is caused to the cable system, the cable operator may impose additional technical specifications to eliminate such harm. To the extent a customer's installations or rearrangements of wiring degrade the signal quality of or interfere with other customers' signals, or cause electronic or physical harm to the cable system, the cable operator may discontinue service to that subscriber until the degradation or interference is resolved.

(c) Customers shall not physically cut, substantially alter, improperly terminate or otherwise destroy cable operator-owned home wiring.

(d) Section 76.806 shall apply to all MVPDs.

[62 FR 61034, Nov. 14, 1997, as amended at 68 FR 13855, Mar. 21, 2003]

Subpart N—Cable Rate Regulation

SOURCE: 58 FR 29753, May 21, 1993, unless otherwise noted.

EFFECTIVE DATE NOTE: The effective date of the amendments to part 76, published at 58

FR 29737 (May 21, 1993), extended to October 1, 1993, by an order published at 58 FR 33560 (June 18, 1993), and moved to September 1, 1993, by an order published at 58 FR 41042 (August 2, 1993), is temporarily stayed for those cable systems that have 1,000 or fewer subscribers. This limited, temporary stay is effective September 1, 1993, and will remain in effect until the Commission terminates the stay and establishes a new effective date in an order on reconsideration addressing the administrative burdens and costs of compliance for small cable systems. The Commission will publish in the FEDERAL REGISTER the new effective date of the rules with respect to small cable systems at that time.

§ 76.901 Definitions.

(a) *Basic service.* The basic service tier shall, at a minimum, include all signals of domestic television broadcast stations provided to any subscriber (except a signal secondarily transmitted by satellite carrier beyond the local service area of such station, regardless of how such signal is ultimately received by the cable system) any public, educational, and governmental programming required by the franchise to be carried on the basic tier, and any additional video programming signals a service added to the basic tier by the cable operator.

(b) *Cable programming service.* Cable programming service includes any video programming provided over a cable system, regardless of service tier, including installation or rental of equipment used for the receipt of such video programming, other than:

(1) Video programming carried on the basic service tier as defined in this section;

(2) Video programming offered on a pay-per-channel or pay-per-program basis; or

(3) A combination of multiple channels of pay-per-channel or pay-per-program video programming offered on a multiplexed or time-shifted basis so long as the combined service:

(i) Consists of commonly-identified video programming; and

(ii) Is not bundled with any regulated tier of service.

(c) *Small system.* A small system is a cable television system that serves 15,000 or fewer subscribers. The service area of a small system shall be determined by the number of subscribers that are served by the system's principal headend, including any other headends or microwave receive sites that are technically integrated to the principal headend.

(d) *New Product Tier.* A new product tier (''NPT'') is a cable programming service tier meeting the conditions set forth in § 76.987.

(e) *Small cable company.* A small cable company is a cable television operator that serves a total of 400,000 or fewer subscribers over one or more cable systems.

(f) *Small cable operator.* A small cable operator is an operator that, directly or through an affiliate, serves in the aggregate fewer than 1 percent of all subscribers in the United States and is not affiliated with any entity or entities whose gross annual revenues in the aggregate exceed $250,000,000. For purposes of this definition, an operator shall be deemed affiliated with another entity if that entity holds a 20 percent or greater equity interest (not including truly passive investment) in the operator or exercises de jure or de facto control over the operator.

NOTE 1 TO PARAGRAPH (f): Using the most reliable sources publicly available, the Commission periodically will determine and give public notice of the subscriber count that will serve as the 1 percent threshold until a new number is calculated.

NOTE 2 TO PARAGRAPH (f): For a discussion of passive interests with respect to small cable operators, see Implementation of Cable Act Reform Provisions of the Telecommunications Act of 1996, Report and Order in CS Docket No. 96–85, FCC 99–57 (released March 29, 1999).

NOTE 3 TO PARAGRAPH (f): If two or more entities unaffiliated with each other each hold an equity interest in the small cable operator, the equity interests of the unaffiliated entities will not be aggregated with each other for the purpose of determining whether an entity meets or passes the 20 percent affiliation threshold.

[58 FR 29753, May 21, 1993, as amended at 59 FR 62623, Dec. 6, 1994; 60 FR 35864, July 12, 1995; 64 FR 35950, July 2, 1999]

§ 76.905 Standards for identification of cable systems subject to effective competition.

(a) Only the rates of cable systems that are not subject to effective competition may be regulated.

(b) A cable system is subject to effective competition when any one of the following conditions is met:

(1) Fewer than 30 percent of the households in its franchise area subscribe to the cable service of a cable system.

(2) The franchise area is:

(i) Served by at least two unaffiliated multichannel video programming distributors each of which offers comparable programming to at least 50 percent of the households in the franchise area; and

(ii) the number of households subscribing to multichannel video programming other than the largest multichannel video programming distributor exceeds 15 percent of the households in the franchise area.

(3) A multichannel video programming distributor, operated by the franchising authority for that franchise area, offers video programming to at least 50 percent of the households in the franchise area.

(4) A local exchange carrier or its affiliate (or any multichannel video programming distributor using the facilities of such carrier or its affiliate) offers video programming services directly to subscribers by any means (other than direct-to-home satellite services) in the franchise area of an unaffiliated cable operator which is providing cable service in that franchise area, but only if the video programming services so offered in that area are comparable to the video programming services provided by the unaffiliated cable operator in that area.

(c) For purposes of paragraphs (b)(1) through (b)(3) of this section, each separately billed or billable customer will count as a household subscribing to or being offered video programming services, with the exception of multiple dwelling buildings billed as a single customer. Individual units of multiple dwelling buildings will count as separate households. The term ''households'' shall not include those dwellings that are used solely for seasonal, occasional, or recreational use.

(d) A multichannel video program distributor, for purposes of this section, is an entity such as, but not limited to, a cable operator, a BRS/EBS provider, a direct broadcast satellite service, a television receive-only satellite program distributor, a video dialtone service provider, or a satellite master antenna television service provider that makes available for purchase, by subscribers or customers, multiple channels of video programming.

(e) Service of a multichannel video programming distributor will be deemed offered:

(1) When the multichannel video programming distributor is physically able to deliver service to potential subscribers, with the addition of no or only minimal additional investment by the distributor, in order for an individual subscriber to receive service; and

(2) When no regulatory, technical or other impediments to households taking service exist, and potential subscribers in the franchise area are reasonably aware that they may purchase the services of the multichannel video programming distributor.

(f) For purposes of determining the number of households subscribing to the services of a multichannel video programming distributor other than the largest multichannel video programming distributor, under paragraph (b)(2)(ii) of this section, the number of subscribers of all multichannel video programming distributors that offer service in the franchise area will be aggregated.

(g) In order to offer comparable programming as that term is used in this section, a competing multichannel video programming distributor must offer at least 12 channels of video programming, including at least one channel of nonbroadcast service programming.

(h) For purposes of paragraph (b)(2) of this section, entities are affiliated if either entity has an attributable interest in the other or if a third party has an attributable interest in both entities. Attributable interest shall be defined by reference to the criteria set forth in Notes 1 through 5 to § 76.501.

(i) For purposes of paragraph (b)(4) of this section, entities are affiliated if either entity has an attributable interest in the other or if a third party has an attributable interest in both entities.

Attributable interest shall be defined as follows:

(1) A 10% partnership or voting equity interest in a corporation will be cognizable.

(2) Subject to paragraph (i)(3), a limited partnership interest of 10% or more shall be attributed to a limited partner unless that partner is not materially involved, directly or indirectly, in the management or operation of the media-related activities of the partnership and the relevant entity so certifies. An interest in a Limited Liability Company (''LLC'') or Registered Limited Liability Partnership (''RLLP'') shall be attributed to the interest holder unless that interest holder is not materially involved, directly or indirectly, in the management or operation of the media-related activities of the partnership and the relevant entity so certifies. Certifications must be made pursuant to the guidelines set forth in Note 2(f) to § 76.501.

(3) Notwithstanding paragraph (i)(2), the holder of an equity or debt interest or interests in an entity covered by this rule shall have that interest attributed if the equity (including all stockholdings, whether voting or nonvoting, common or preferred, and partnership interests) and debt interest or interests, in the aggregate, exceed 33 percent of the total asset value (all equity plus all debt) of that entity.

(4) Discrete ownership interests held by the same individual or entity will be aggregated in determining whether or not an interest is cognizable under this section. An individual or entity will be deemed to have a cognizable investment if the sum of the interests other than those held by or through ''passive investors'' is equal to or exceeds 10%.

[58 FR 29753, May 21, 1993, as amended at 59 FR 17972, Apr. 15, 1994; 61 FR 18978, Apr. 30, 1996; 62 FR 6495, Feb. 12, 1997; 64 FR 35950, July 2, 1999; 64 FR 67196, Dec. 1, 1999; 69 FR 72046, Dec. 10, 2004]

§ 76.906 Presumption of no effective competition.

In the absence of a demonstration to the contrary, cable systems are presumed not to be subject to effective competition.

§ 76.907 Petition for a determination of effective competition.

(a) A cable operator (or other interested party) may file a petition for a determination of effective competition with the Commission pursuant to the Commission's procedural rules in § 76.7.

(b) The cable operator bears the burden of rebutting the presumption that effective competition does not exist with evidence that effective competition, as defined in § 76.905, exists in the franchise area.

NOTE TO PARAGRAPH (b): The criteria for determining effective competition pursuant to § 76.905(b)(4) are described in Implementation of Cable Act Reform Provisions of the Telecommunications Act of 1996, Report and Order in CS Docket No. 96–85, FCC 99–57 (released March 29, 1999).

(c) If the evidence establishing effective competition is not otherwise available, cable operators may request from a competitor information regarding the competitor's reach and number of subscribers. A competitor must respond to such request within 15 days. Such responses may be limited to numerical totals. In addition, with respect to petitions filed seeking to demonstrate the presence of effective competition pursuant to § 76.905(b)(4), the Commission may issue an order directing one or more persons to produce information relevant to the petition's disposition.

[64 FR 35950, July 2, 1999]

§ 76.910 Franchising authority certification.

(a) A franchising authority must be certified by the Commission in order to regulate the basic service tier and associated equipment of a cable system within its jurisdiction.

(b) To be certified, the franchising authority must file with the Commission a written certification that:

(1) The franchising authority will adopt and administer regulations with respect to the rates for the basic service tier that are consistent with the regulations prescribed by the Commission for regulation of the basic service tier;

(2) The franchising authority has the legal authority to adopt, and the personnel to administer, such regulations;

(3) Procedural laws and regulations applicable to rate regulation proceedings by such authority provide a reasonable opportunity for consideration of the views of interested parties; and

(4) The cable system in question is not subject to effective competition. Unless a franchising authority has actual knowledge to the contrary, the franchising authority may rely on the presumption in §76.906 that the cable operator is not subject to effective competition.

(c) The written certification described in paragraph (b) of this section shall be made by filing the FCC form designated for that purpose. The form must be filed by

(1) Registered mail, return receipt requested, or

(2) Hand-delivery to the Commission and a date-stamped copy obtained. The date on the return receipt or on the date-stamped copy is the date filed.

(d) A copy of the certification form described in paragraph (c) of this section must be served on the cable operator before or on the same day it is filed with the Commission.

(e) Unless the Commission notifies the franchising authority otherwise, the certification will become effective 30 days after the date filed, *provided, however*, That the franchising authority may not regulate the rates of a cable system unless it:

(1) Adopts regulations:

(i) Consistent with the Commission's regulations governing the basic tier; and

(ii) Providing a reasonable opportunity for consideration of the views of interested parties, within 120 days of the effective date of certification; and

(2) Notifies the cable operator that the authority has been certified and has adopted the regulations required by paragraph (e)(1) of this section.

(f) If the Commission denies a franchising authority's certification, the Commission will notify the franchising authority of any revisions or modifications necessary to obtain approval.

§76.911 Petition for reconsideration of certification.

(a) A cable operator (or other interested party) may challenge a franchising authority's certification by filing a petition for reconsideration pursuant to §1.106. The petition may allege either of the following:

(1) The cable operator is not subject to rate regulation because effective competition exists as defined in §76.905. Sections 76.907(b) and (c) apply to petitions filed under this section.

(2) The franchising authority does not meet the certification standards set forth in 47 U.S.C. 543(a)(3).

(b) Stay of rate regulation. (1) The filing of a petition for reconsideration pursuant to paragraph (a)(1) of this section will automatically stay the imposition of rate regulation pending the outcome of the reconsideration proceeding.

(2) A petitioner filing pursuant to paragraph (a)(2) of this section may request a stay of rate regulation.

(3) In any case in which a stay of rate regulation has been granted, if the petition for reconsideration is denied, the cable operator may be required to refund any rates or portion of rates above the permitted tier charge or permitted equipment charge which were collected from the date the operator implements a prospective rate reduction back in time to September 1, 1993, or one year, whichever is shorter.

(c) The filing of a petition for reconsideration alleging the presence of effective competition based on frivolous grounds is prohibited, and may be subject to forfeitures.

(d) If the Commission upholds a challenge to a certification filed pursuant to paragraph (a)(2) of this section, the Commission will notify the franchising authority of the revisions necessary to secure approval and provide the authority an opportunity to amend its certification however necessary to secure approval. *Provided, however*, That pending approval of certification, the Commission will assume jurisdiction over basic cable service rates in that franchise area.

[58 FR 29753, May 21, 1993, as amended at 58 FR 46735, Sept. 2, 1993; 64 FR 35950, July 2, 1999]

§76.912 Joint certification.

(a) Franchising authorities may apply for joint certification and may engage in joint regulation, including,

but not limited to, joint hearings, data collection, and ratemaking. Franchising authorities jointly certified to regulate their cable system(s) may make independent rate decisions.

(b) Franchising authorities may apply for joint certification regardless of whether the authorities are served by the same cable system or by different cable systems and regardless of whether the rates in each franchising area are uniform.

§ 76.913 Assumption of jurisdiction by the Commission.

(a) Upon denial or revocation of the franchising authority's certification, the Commission will regulate rates for cable services and associated equipment of a cable system not subject to effective competition, as defined in § 76.905, in a franchise area. Such regulation by the Commission will continue until the franchising authority has obtained certification or recertification.

(b) A franchising authority unable to meet certification standards may petition the Commission to regulate the rates for basic cable service and associated equipment of its franchisee when:

(1) The franchising authority lacks the resources to administer rate regulation.

(2) The franchising authority lacks the legal authority to regulate basic service rates; *Provided, however,* That the authority must submit with its request a statement detailing the nature of the legal infirmity.

(c) The Commission will regulate basic service rates pursuant to this Section until the franchising authority qualifies to exercise jurisdiction pursuant to § 76.916.

[58 FR 29753, May 21, 1993, as amended at 62 FR 6495, Feb. 12, 1997]

§ 76.914 Revocation of certification.

(a) A franchising authority's certification shall be revoked if:

(1) After the franchising authority has been given a reasonable opportunity to comment and cure any minor nonconformance, it is determined that state and local laws and regulations are in substantial and material conflict with the Commission's regulations governing cable rates.

(2) After being given an opportunity to cure the defect, a franchising authority fails to fulfill one of the three conditions for certification, set forth in 47 U.S.C. 543(a)(3), or any of the provisions of § 76.910(b).

(b) In all cases of revocation, the Commission will assume jurisdiction over basic service rates until an authority becomes recertified. The Commission will also notify the franchising authority regarding the corrective action that may be taken.

(c) A cable operator may file a petition for special relief pursuant to § 76.7 of this part seeking revocation of a franchising authority's certification.

(d) While a petition for revocation is pending, and absent grant of a stay, the franchising authority may continue to regulate the basic service rates of its franchisees.

[58 FR 29753, May 21, 1993, as amended at 59 FR 17972, Apr. 15, 1994; 64 FR 6572, Feb. 10, 1999]

§ 76.916 Petition for recertification.

(a) After its request for certification has been denied or its existing certification has been revoked, a franchising authority wishing to assume jurisdiction to regulate basic service and associated equipment rates must file a ''Petition for Recertification'' accompanied by a copy of the earlier decision denying or revoking certification.

(b) The petition must:

(1) Meet the requirements set forth in 47 U.S.C. 543(a)(3);

(2) State that the cable system is not subject to effective competition; and

(3) Contain a clear showing, supported by either objectively verifiable data such as a state statute, or by affidavit, that the reasons for the earlier denial or revocation no longer pertain.

(c) The petition must be served on the cable operator and on any interested party that participated in the proceeding denying or revoking the original certification.

(d) Oppositions may be filed within 15 days after the petition is filed, and must be served on the petitioner. Replies may be filed within seven days of filing of oppositions, and must be served on the opposing party(ies).

§ 76.917 Notification of certification withdrawal.

A franchising authority that has been certified to regulate rates may, at any time, notify the Commission that it no longer intends to regulate basic cable rates. Such notification shall include the franchising authority's determination that rate regulation no longer serves the interests of cable subscribers served by the cable system within the franchising authority's jurisdiction, and that it has received no consideration for its withdrawal of certification. Such notification shall be served on the cable operator. The Commission retains the right to review such determinations and to request the factual finding of the franchising authority underlying its decision to withdraw certification. The franchising authority's withdrawal becomes effective upon notification to the Commission.

[59 FR 17972, Apr. 15, 1994]

§ 76.920 Composition of the basic tier.

Every subscriber of a cable system must subscribe to the basic tier in order to subscribe to any other tier of video programming or to purchase any other video programming.

§ 76.921 Buy-through of other tiers prohibited.

(a) No cable system operator, other than an operator subject to effective competition, may require the subscription to any tier other than the basic service tier as a condition of subscription to video programming offered on a per channel or per program charge basis. A cable operator may, however, require the subscription to one or more tiers of cable programming services as a condition of access to one or more tiers of cable programming services.

(b) A cable operator not subject to effective competition may not discriminate between subscribers to the basic service tier and other subscribers with regard to the rates charged for video programming offered on a per-channel or per-program charge basis.

(c) With respect to cable systems not subject to effective competition, prior to October 5, 2002, the provisions of paragraph (a) of this section shall not apply to any cable system that lacks the capacity to offer basic service and all programming distributed on a per channel or per program basis without also providing other intermediate tiers of service:

(1) By controlling subscriber access to nonbasic channels of service through addressable equipment electronically controlled from a central control point; or

(2) Through the installation, noninstallation, or removal of frequency filters (traps) at the premises of subscribers without other alteration in system configuration or design and without causing degradation in the technical quality of service provided.

(d) With respect to cable systems not subject to effective competition, any retiering of channels or services that is not undertaken in order to accomplish legitimate regulatory, technical, or customer service objectives and that is intended to frustrate or has the effect of frustrating compliance with paragraphs (a) through (c) of this section is prohibited.

[62 FR 6495, Feb. 12, 1997]

§ 76.922 Rates for the basic service tier and cable programming services tiers.

(a) *Basic and cable programming service tier rates.* Basic service tier and cable programming service rates shall be subject to regulation by the Commission and by state and local authorities, as is appropriate, in order to assure that they are in compliance with the requirements of 47 U.S.C. 543. Rates that are demonstrated, in accordance with this part, not to exceed the ''Initial Permitted Per Channel Charge'' or the ''Subsequent Permitted Per Channel Charge'' as described in this section, or the equipment charges as specified in §76.923, will be accepted as in compliance. The maximum monthly charge per subscriber for a tier of regulated programming services offered by a cable system shall consist of a permitted per channel charge multiplied by the number of channels on the tier, plus a charge for franchise fees. The maximum monthly charges for regulated programming services shall not include any charges for equipment or installations. Charges for equipment

and installations are to be calculated separately pursuant to §76.923. The same rate-making methodology (either the benchmark methodology found in paragraph (b) of this section, or a cost-of-service showing) shall be used to set initial rates on all rate regulated tiers, and shall continue to provide the basis for subsequent permitted charges.

(b) *Permitted charge on May 15, 1994.* (1) The permitted charge for a tier of regulated program service shall be, at the election of the cable system, either:

(i) A rate determined pursuant to a cost-of-service showing;

(ii) The full reduction rate;

(iii) The transition rate, if the system is eligible for transition relief; or

(iv) A rate based on a streamlined rate reduction, if the system is eligible to implement such a rate reduction. Except where noted, the term ''rate'' in this subsection means a rate measured on an average regulated revenue per subscriber basis.

(2) *Full reduction rate.* The ''full reduction rate'' on May 15, 1994 is the system's September 30, 1992 rate, measured on an average regulated revenue per subscriber basis, reduced by 17 percent, and then adjusted for the following:

(i) The establishment of permitted equipment rates as required by §76.923;

(ii) Inflation measured by the GNP-PI between October 1, 1992 and September 30, 1993;

(iii) Changes in the number of program channels subject to regulation that are offered on the system's program tiers between September 30, 1992 and the earlier of the initial date of regulation for any tier or February 28, 1994; and

(iv) Changes in external costs that have occurred between the earlier of the initial date of regulation for any tier or February 28, 1994, and March 31, 1994.

(3) *March 31, 1994 benchmark rate.* The ''March 31, 1994 benchmark rate'' is the rate so designated using the calculations in Form 1200.

(4) *Transition rates*—(i) *Termination of transition relief for systems other than low price systems.* Systems other than low-price systems that already have established a transition rate as of the effective date of this rule may maintain their current rates, as adjusted under the price cap requirements of §76.922(d), until two years from the effective date of this rule. These systems must begin charging reasonable rates in accordance with applicable rules, other than transition relief, no later than that date.

(ii) *Low-price systems.* Low price systems shall be eligible to establish a transition rate for a tier.

(A) A low-price system is a system:

(*1*) Whose March 31, 1994 rate is below its March 31, 1994 benchmark rate, or

(*2*) Whose March 31, 1994 rate is above its March 31, 1994 benchmark rate, but whose March 31, 1994 full reduction rate is below its March 31, 1994 benchmark rate, as defined in §76.922(b)(2), above.

(B) The transition rate on May 15, 1994 for a system whose March 31, 1994 rate is below its March 31, 1994 benchmark rate is the system's March 31, 1994 rate. The March 31, 1994 rate is in both cases adjusted:

(*1*) To establish permitted rates for equipment as required by §76.923 if such rates have not already been established; and

(*2*) For changes in external costs incurred between the earlier of initial date of regulation of any tier or February 28, 1994, and March 31, 1994, to the extent changes in such costs are not already reflected in the system's March 31, 1994 rate. The transition rate on May 15, 1994 for a system whose March 31, 1994 adjusted rate is above its March 31, 1994 benchmark rate, but whose March 31, 1994 full reduction rate is below its March 31, 1994 benchmark rate, is the March 31, 1994 benchmark rate, adjusted to establish permitted rates for equipment as required by §76.923 if such rates have not already been established.

(iii) Notwithstanding the foregoing, the transition rate for a tier shall be adjusted to reflect any determination by a local franchising authority and/or the Commission that the rate in effect on March 31, 1994 was higher (or lower) than that permitted under applicable Commission regulations. A filing reflecting the adjusted rate shall be submitted to all relevant authorities within 30 days after issuance of the local

franchising authority and/or Commission determination. A system whose March 31, 1994 rate is determined by a local franchising authority or the Commission to be too high under the Commission's rate regulations in effect before May 15, 1994 will be subject to any refund liability that may accrue under those rules. In addition, the system will be liable for refund liability under the rules in effect on and after May 15, 1994. Such refund liability will be measured by the difference in the system's March 31, 1994 rate and its permitted March 31, 1994 rate as calculated under the Commission's rate regulations in effect before May 15, 1994. The refund liability will accrue according to the time periods set forth in §§ 76.942, and 76.961 of the Commission's rules.

(5) *Streamlined rate reductions.* (i) Upon becoming subject to rate regulation, a small system owned by a small cable company may make a streamlined rate reduction, subject to the following conditions, in lieu of establishing initial rates pursuant to the other methods of rate regulation set forth in this subpart:

(A) Small systems that are owned by small cable companies and that have not already restructured their rates to comply with the Commission's rules may establish rates for regulated program services and equipment by making a streamlined rate reduction. Small systems owned by small cable companies shall not be eligible for streamlined rate reductions if they are owned or controlled by, or are under common control or affiliated with, a cable operator that exceeds these subscriber limits. For purposes of this rule, a small system will be considered ''affiliated with'' such an operator if the operator has a 20 percent or greater equity interest in the small system.

(B) The streamlined rate for a tier on May 15, 1994 shall be the system's March 31, 1994 rate for the tier, reduced by 14 percent. A small system that elects to establish its rate for a tier by implementing this streamlined rate reduction must also reduce, at the same time, each billed item of regulated cable service, including equipment, by 14 percent. Regulated rates established using the streamlined rate reduction process shall remain in effect until:

(*1*) Adoption of a further order by the Commission establishing a schedule of average equipment costs;

(*2*) The system increases its rates using the calculations and time periods set forth in FCC Form 1211; or

(*3*) The system elects to establish permitted rates under another available option set forth in paragraph (b)(1) of this section.

(C) *Implementation and notification.* An eligible small system that elects to use the streamlined rate reduction process must implement the required rate reductions and provide written notice of such reductions to subscribers, the local franchising authority and the Commission according to the following schedule:

(*1*) Within 60 days from the date it receives the initial notice of regulation from the franchising authority or the Commission, the small system must provide written notice to subscribers and the franchising authority, or to the Commission if the Commission is regulating the basic tier, that it is electing to set its regulated rates by the streamlined rate reduction process. The system must then implement the streamlined rate reductions within 30 days after the written notification has been provided to subscribers and the local franchise authority or Commission.

(*2*) If a cable programming services complaint is filed against the system, the system must provide the required written notice, described in paragraph (b)(5)(iii)(C)(*1*) of this section, to subscribers, the local franchising authority or the Commission within 60 days after the complaint is filed. The system must then implement the streamlined rate reductions within 30 days after the written notification has been provided.

(*3*) A small system is required to give written notice of, and to implement, the rates that are produced by the streamlined rate reduction process only once. If a system has already provided notice of, and implemented, the streamlined rate reductions when a given tier becomes subject to regulation, it must report to the relevant regulator (either the franchising authority or the Commission) in writing within 30 days of becoming subject to regulation that it has already provided

the required notice and implemented the required rate reductions.

(ii) The stremlined rate for a tier on May 15, 1994 shall be the system's March 31, 1994 rate for the tier, reduced by 14 percent. A small system that elects to establish its rate for a tier by implementing this streamlined rate reduction must also reduce, at the same time, each billed item of regulated cable service, including equipment, by 14 percent. Regulated rates established using the streamlined rate reduction process shall remain in effect until:

(A) Adoption of a further order by the Commission establishing a schedule of average equipment costs;

(B) The system increases its rates using the calculations and time periods set forth in FCC Form 1211; or

(C) The system elects to establish permitted rates under another available option set forth in paragraph (b)(1) of this section.

(iii) *Implementation and notification.* An eligible small system that elects to use the streamlined rate reduction process must implement the required rate reductions and provide written notice of such reductions to subscribers, the local franchising authority and the Commission according to the following schedule:

(A) Where the franchising authority has been certified by the Commission to regulate the small system's basic service tier rates as of May 15, 1994, the system must notify the franchising authority and its subscribers in writing that it is electing to set its regulated rates by the streamline rate reduction process. Such notice must be given by June 15, 1994, and must also describe the new rates that will result from the streamlined rate reduction process. Those rates must then be implemented within 30 days after the written notification has been provided to subscribers and the local franchising authority.

(B) Where the franchising authority has not been certified to regulate basic service tier rates by May 15, 1994, the small system must provide the written notice to subscribers and the franchising authority, described in paragraph (b)(5)(iii)(A) of this section, within 30 days from the date it receives the initial notice of regulation from the franchising authority. The system must then implement the streamlined rate reductions within 30 days after the written notification has been provided to subscribers and the local franchise authority.

(C) Where the Commission is regulating the small system's basic service tier rates as of May 15, 1994, the system must notify the Commission and its subscribers in writing that it is electing to set its regulated rates by the streamlined rate reduction process. Such notice must be given by June 15, 1994, and must also describe the new rates that will result from the streamlined rate reduction process. Those rates must then be implemented within 30 days after the written notification has been provided to subscribers and the Commission.

(D) Where the Commission begins regulating basic service rates after May 15, 1994, the small system must provide the written notice to subscribers and the Commission, described in paragraph (b)(5)(iii)(C) of this section, within 30 days from the date it receives an initial notice of regulation. The system must then implement the streamlined rate reductions within 30 days after the written notification has been provided to subscribers and the Commission.

(E) If a complaint about its cable programming service rates has been filed with the Commission on or before May 15, 1994, the small system must provide the written notice described in paragraph (b)(5)(iii)(A) of this section, to subscribers, the local franchising authority and the Commission by June 15, 1994. If a cable programming services complaint is filed against the system after May 15, 1994, the system must provide the required written notice to subscribers, the local franchising authority or the Commission within 30 days after the complaint is filed. The system must then implement the streamlined rate reductions within 30 days after the written notification has been provided.

(F) A small system is required to give written notice of, and to implement, the rates that are produced by the streamlined rate reduction process only once. If a system has already provided notice of, and implemented, the streamlined rate reductions when a

given tier becomes subject to regulation, it must report to the relevant regulator (either the franchising authority or the Commission) in writing within 30 days of becoming subject to regulation that it has already provided the required notice and implemented the required rate reductions.

(6) *Establishment of initial regulated rates.* (i) Cable systems, other than those eligible for streamlined rate reductions, shall file FCC Forms 1200, 1205, and 1215 for a tier that is regulated on May 15, 1994 by June 15, 1994, or thirty days after the initial date of regulation for the tier. A system that becomes subject to regulation for the first time on or after July 1, 1994 shall also file FCC Form 1210 at the time it files FCC Forms 1200, 1205 and 1215.

(ii) A cable system will not incur refund liability under the Commission's rules governing regulated cable rates on and after May 15, 1994 if:

(A) Between March 31, 1994 and July 14, 1994, the system does not change the rate for, or restructure in any fashion, any program service or equipment offering that is subject to regulation under the 1992 Cable Act; and

(B) The system establishes a permitted rate defined in paragraph (b) of this section by July 14, 1994. The deferral of refund liability permitted by this subsection will terminate if, after March 31, 1994, the system changes any rate for, or restructures, any program service or equipment offering subject to regulation, and in all events will expire on July 14, 1994. Moreover, the deferral of refund liability permitted by this paragraph does not apply to refund liability that occurs because the system's March 31, 1994 rates for program services and equipment subject to regulation are higher than the levels permitted under the Commission's rules in effect before May 15, 1994.

(7) For purposes of this section, the initial date of regulation for the basic service tier shall be the date on which notice is given pursuant to §76.910, that the provision of the basic service tier is subject to regulation. For a cable programming services tier, the initial date of regulation shall be the first date on which a complaint on the appropriate form is filed with the Commission concerning rates charged for the cable programming services tier.

(8) For purposes of this section, rates in effect on the initial date of regulation or on September 30, 1992 shall be the rates charged to subscribers for service received on that date.

(9) *Updating data calculations.* (i) For purposes of this section, if:

(A) A cable operator, prior to becoming subject to regulation, revised its rates to comply with the Commission's rules; and

(B) The data on which the cable operator relied was current and accurate at the time of revision, and the rate is accurate and justified by the prior data; and

(C) Through no fault of the cable operator, the rates that resulted from using such data differ from the rates that would result from using data current and accurate at the time the cable operator's system becomes subject to regulation; then the cable operator is not required to change its rates to reflect the data current at the time it becomes subject to regulation.

(ii) Notwithstanding the above, any subsequent changes in a cable operator's rates must be made from rate levels derived from data [that was current as of the date of the rate change].

(iii) For purposes of this subsection, if the rates charged by a cable operator are not justified by an analysis based on the data available at the time it initially adjusted its rates, the cable operator must adjust its rates in accordance with the most accurate data available at the time of the analysis.

(c) *Subsequent permitted charge.* (1) The permitted charge for a tier after May 15, 1994 shall be, at the election of the cable system, either:

(i) A rate determined pursuant to a cost-of-service showing,

(ii) A rate determined by application of the Commission's price cap requirements set forth in paragraph (d) of this section to a permitted rate determined in accordance with paragraph (b) of this section, or

(iii) A rate determined by application of the Commission's price cap requirements set forth in paragraph (e) of this section to a permitted rate determined in accordance with paragraph (b) of this section.

(2) The Commission's price cap requirements allow a system to adjust its permitted charges for inflation, changes in the number of regulated channels on tiers, or changes in external costs. After May 15, 1994, adjustments for changes in external costs shall be calculated by subtracting external costs from the system's permitted charge and making changes to that ''external cost component'' as necessary. The remaining charge, referred to as the ''residual component,'' will be adjusted annually for inflation. Cable systems may adjust their rates by using the price cap rules contained in either paragraph (d) or (e) of this section. In addition, cable systems may further adjust their rates using the methodologies set forth in paragraph (n) of this section.

(3) An operator may switch between the quarterly rate adjustment option contained in paragraph (d) of this section and the annual rate adjustment option contained in paragraph (e) of this section, provided that:

(i) Whenever an operator switches from the current quarterly system to the annual system, the operator may not file a Form 1240 earlier than 90 days after the operator proposed its last rate adjustment on a Form 1210; and

(ii) When an operator changes from the annual system to the quarterly system, the operator may not return to a quarterly adjustment using a Form 1210 until a full quarter after it has filed a true up of its annual rate on a Form 1240 for the preceding filing period.

(4) An operator that does not set its rates pursuant to a cost-of-service filing must use the quarterly rate adjustment methodology pursuant to paragraph (d) of this section or annual rate adjustment methodology pursuant to paragraph (e) of this section for both its basic service tier and its cable programming services tier(s).

(d) *Quarterly rate adjustment method*—(1) *Calendar year quarters.* All systems using the quarterly rate adjustment methodology must use the following calendar year quarters when adjusting rates under the price cap requirements. The first quarter shall run from January 1 through March 31 of the relevant year; the second quarter shall run from April 1 through June 30; the third quarter shall run from July 1 through September 30; and the fourth quarter shall run from October 1 through December 31.

(2) *Inflation adjustments.* The residual component of a system's permitted charge may be adjusted annually for inflation. The annual inflation adjustment shall be used on inflation occurring from June 30 of the previous year to June 30 of the year in which the inflation adjustment is made, except that the first annual inflation adjustment shall cover inflation from September 30, 1993 until June 30 of the year in which the inflation adjustment is made. The adjustment may be made after September 30, but no later than August 31, of the next calendar year. Adjustments shall be based on changes in the Gross National Product Price Index as published by the Bureau of Economic Analysis of the United States Department of Commerce. Cable systems that establish a transition rate pursuant to paragraph (b)(4) of this section may not begin adjusting rates on account of inflation before April 1, 1995. Between April 1, 1995 and August 31, 1995 cable systems that established a transition rate may adjust their rates to reflect the net of a 5.21% inflation adjustment minus any inflation adjustments they have already received. Low price systems that had their March 31, 1994 rates above the benchmark, but their full reduction rate below the benchmark will be permitted to adjust their rates to reflect the full 5.21% inflation factor unless the rate reduction was less than the inflation adjustment received on an FCC Form 393 for rates established prior to May 15, 1994. If the rate reduction established by a low price system that reduced its rate to the benchmark was less than the inflation adjustment received on an FCC Form 393, the system will be permitted to receive the 5.21% inflation adjustment minus the difference between the rate reduction and the inflation adjustment the system made on its FCC Form 393. Cable systems that established a transition rate may make future inflation adjustments on an annual basis with all other cable operators, no earlier than October 1 of

each year and no later than August 31 of the following year to reflect the final GNP-PI through June 30 of the applicable year.

(3) *External costs.* (i) Permitted charges for a tier may be adjusted up to quarterly to reflect changes in external costs experienced by the cable system as defined by paragraph (f) of this section. In all events, a system must adjust its rates annually to reflect any decreases in external costs that have not previously been accounted for in the system's rates. A system must also adjust its rates annually to reflect any changes in external costs, inflation and the number of channels on regulated tiers that occurred during the year if the system wishes to have such changes reflected in its regulated rates. A system that does not adjust its permitted rates annually to account for those changes will not be permitted to increase its rates subsequently to reflect the changes.

(ii) A system must adjust its rates in the next calendar year quarter for any decrease in programming costs that results from the deletion of a channel or channels from a regulated tier.

(iii) Any rate increase made to reflect an increase in external costs must also fully account for all other changes in external costs, inflation and the number of channels on regulated tiers that occurred during the same period. Rate adjustments made to reflect changes in external costs shall be based on any changes in those external costs that occurred from the end of the last quarter for which an adjustment was previously made through the end of the quarter that has most recently closed preceding the filing of the FCC Form 1210 (or FCC Form 1211, where applicable). A system may adjust its rates after the close of a quarter to reflect changes in external costs that occurred during that quarter as soon as it has sufficient information to calculate the rate change.

(e) *Annual rate adjustment method*—(1) *Generally.* Except as provided for in paragraphs (e)(2)(iii)(B) and (e)(2)(iii)(C) of this section and Section 76.923(o), operators that elect the annual rate adjustment method may not adjust their rates more than annually to reflect inflation, changes in external costs, changes in the number of regulated channels, and changes in equipment costs. Operators that make rate adjustments using this method must file on the same date a Form 1240 for the purpose of making rate adjustments to reflect inflation, changes in external costs and changes in the number of regulated channels and a Form 1205 for the purpose of adjusting rates for regulated equipment and installation. Operators may choose the annual filing date, but they must notify the franchising authority of their proposed filing date prior to their filing. Franchising authorities or their designees may reject the annual filing date chosen by the operator for good cause. If the franchising authority finds good cause to reject the proposed filing date, the franchising authority and the operator should work together in an effort to reach a mutually acceptable date. If no agreement can be reached, the franchising authority may set the filing date up to 60 days later than the date chosen by the operator. An operator may change its filing date from year-to-year, but except as described in paragraphs (e)(2)(iii)(B) and (e)(2)(iii)(C) of this section, at least twelve months must pass before the operator can implement its next annual adjustment.

(2) *Projecting inflation, changes in external costs, and changes in number of regulated channels.* An operator that elects the annual rate adjustment method may adjust its rates to reflect inflation, changes in external costs and changes in the number of regulated channels that are projected for the 12 months following the date the operator is scheduled to make its rate adjustment pursuant to Section 76.933(g).

(i) *Inflation Adjustments.* The residual component of a system's permitted charge may be adjusted annually to project for the 12 months following the date the operator is scheduled to make a rate adjustment. The annual inflation adjustment shall be based on inflation that occurred in the most recently completed July 1 to June 30 period. Adjustments shall be based on changes in the Gross National Product Price Index

as published by the Bureau of Economic Analysis of the United States Department of Commerce.

(ii) *External costs.* (A) Permitted charges for a tier may be adjusted annually to reflect changes in external costs experienced but not yet accounted for by the cable system, as well as for projections in these external costs for the 12-month period on which the filing is based. In order that rates be adjusted for projections in external costs, the operator must demonstrate that such projections are reasonably certain and reasonably quantifiable. Projections involving copyright fees, retransmission consent fees, other programming costs, Commission regulatory fees, and cable specific taxes are presumed to be reasonably certain and reasonably quantifiable. Operators may project for increases in franchise related costs to the extent that they are reasonably certain and reasonably quantifiable, but such changes are not presumed reasonably certain and reasonably quantifiable. Operators may pass through increases in franchise fees pursuant to Section 76.933(g).

(B) In all events, a system must adjust its rates every twelve months to reflect any net decreases in external costs that have not previously been accounted for in the system's rates.

(C) Any rate increase made to reflect increases or projected increases in external costs must also fully account for all other changes and projected changes in external costs, inflation and the number of channels on regulated tiers that occurred or will occur during the same period. Rate adjustments made to reflect changes in external costs shall be based on any changes, plus projections, in those external costs that occurred or will occur in the relevant time periods since the periods used in the operator's most recent previous FCC Form 1240.

(iii) *Channel adjustments.* (A) Permitted charges for a tier may be adjusted annually to reflect changes not yet accounted for in the number of regulated channels provided by the cable system, as well as for projected changes in the number of regulated channels for the 12-month period on which the filing is based. In order that rates be adjusted for projected changes to the number of regulated channels, the operator must demonstrate that such projections are reasonably certain and reasonably quantifiable.

(B) An operator may make rate adjustments for the addition of required channels to the basic service tier that are required under federal or local law at any time such additions occur, subject to the filing requirements of Section 76.933(g)(2), regardless of whether such additions occur outside of the annual filing cycle. Required channels may include must-carry, local origination, public, educational and governmental access and leased access channels. Should the operator elect not to pass through the costs immediately, it may accrue the costs of the additional channels plus interest, as described in paragraph (e)(3) of this section.

(C) An operator may make one additional rate adjustment during the year to reflect channel additions to the cable programming services tiers or, where the operator offers only one regulated tier, the basic service tier. Operators may make this additional rate adjustment at any time during the year, subject to the filing requirements of Section 76.933(g)(2), regardless of whether the channel addition occurs outside of the annual filing cycle. Should the operator elect not to pass through the costs immediately, it may accrue the costs of the additional channels plus interest, as described in paragraph (e)(3) of this section.

(3) *True-up and accrual of charges not projected.* As part of the annual rate adjustment, an operator must ''true up'' its previously projected inflation, changes in external costs and changes in the number of regulated channels and adjust its rates for these actual cost changes. The operator must decrease its rates for overestimation of its projected cost changes, and may increase its rates to adjust for underestimation of its projected cost changes.

(i) Where an operator has underestimated costs, future rates may be increased to permit recovery of the accrued costs plus 11.25% interest between the date the costs are incurred and the date the operator is entitled to make its rate adjustment.

(ii) *Per channel adjustment.* Operators may increase rates by a per channel adjustment of up to 20 cents per subscriber per month, exclusive of programming costs, for each channel added to a CPST between May 15, 1994, and December 31, 1997, except that an operator may take the per channel adjustment only for channel additions that result in an increase in the highest number of channels offered on all CPSTs as compared to May 14, 1994, and each date thereafter. Any revenues received from a programmer, or shared by a programmer and an operator in connection with the addition of a channel to a CPST shall first be deducted from programming costs for that channel pursuant to paragraph (d)(3)(x) of this section and then, to the extent revenues received from the programmer are greater than the programming costs, shall be deducted from the per channel adjustment. This deduction will apply on a channel by channel basis. With respect to the per channel adjustment only, this deduction shall not apply to revenues received by an operator from a programmer as commissions on sales of products or services offered through home shopping services.

(iii) If an operator has underestimated its cost changes and elects not to recover these accrued costs with interest on the date the operator is entitled to make its annual rate adjustment, the interest will cease to accrue as of the date the operator is entitled to make the annual rate adjustment, but the operator will not lose its ability to recover such costs and interest. An operator may recover accrued costs between the date such costs are incurred and the date the operator actually implements its rate adjustment.

(iv) Operators that use the annual methodology in their next filing after the release date of this Order may accrue costs and interest incurred since July 1, 1995 in that filing. Operators that file a Form 1210 in their next filing after the release date of this Order, and elect to use Form 1240 in a subsequent filing, may accrue costs incurred since the end of the last quarter to which a Form 1210 applies.

(4) *Sunset provision.* The Commission will review paragraph (e) of this section prior to December 31, 1998 to determine whether the annual rate adjustment methodology should be kept, and whether the quarterly system should be eliminated and replaced with the annual rate adjustment method.

(f) *External costs.* (1) External costs shall consist of costs in the following categories:

(i) State and local taxes applicable to the provision of cable television service;

(ii) Franchise fees;

(iii) Costs of complying with franchise requirements, including costs of providing public, educational, and governmental access channels as required by the franchising authority;

(iv) Retransmission consent fees and copyright fees incurred for the carriage of broadcast signals;

(v) Other programming costs; and

(vi) Commission cable television system regulatory fees imposed pursuant to 47 U.S.C. §159.

(vii) Headend equipment costs necessary for the carriage of digital broadcast signals.

(2) The permitted charge for a regulated tier shall be adjusted on account of programming costs, copyright fees and retransmission consent fees only for the program channels or broadcast signals offered on that tier.

(3) The permitted charge shall not be adjusted for costs of retransmission consent fees or changes in those fees incurred prior to October 6, 1994.

(4) The starting date for adjustments on account of external costs for a tier of regulated programming service shall be the earlier of the initial date of regulation for any basic or cable service tier or February 28, 1994. Except, for regulated FCC Form 1200 rates set on the basis of rates at September 30, 1992 (using either March 31, 1994 rates initially determined from FCC Form 393 Worksheet 2 or using Form 1200 Full Reduction Rates from Line J6), the starting date shall be September 30, 1992. Operators in this latter group may make adjustment for changes in external costs for the period between September 30, 1992, and the initial date of regulation or February 28, 1994, whichever is applicable, based either on changes in the GNP-PI over that period or on the actual change in the external

costs over that period. Thereafter, adjustment for external costs may be made on the basis of actual changes in external costs only.

(5) Changes in franchise fees shall not result in an adjustment to permitted charges, but rather shall be calculated separately as part of the maximum monthly charge per subscriber for a tier of regulated programming service.

(6) Adjustments to permitted charges to reflect changes in the costs of programming purchased from affiliated programmers, as defined in §76.901, shall be permitted as long as the price charged to the affiliated system reflects either prevailing company prices offered in the marketplace to third parties (where the affiliated program supplier has established such prices) or the fair market value of the programming.

(i) For purposes of this section, entities are affiliated if either entity has an attributable interest in the other or if a third party has an attributable interest in both entities.

(ii) Attributable interest shall be defined by reference to the criteria set forth in Notes 1 through 5 to §76.501 provided, however, that:

(A) The limited partner and LLC/LLP/RLLP insulation provisions of Note 2(f) shall not apply; and

(B) The provisions of Note 2(a) regarding five (5) percent interests shall include all voting or nonvoting stock or limited partnership equity interests of five (5) percent or more.

(7) Adjustments to permitted charges on account of increases in costs of programming shall be further adjusted to reflect any revenues received by the operator from the programmer. Such adjustments shall apply on a channel-by-channel basis.

(8) In calculating programming expense, operators may add a mark-up of 7.5% for increases in programming costs occurring after March 31, 1994, except that operators may not file for or take the 7.5% mark-up on programming costs for new channels added on or after May 15, 1994 for which the operator has used the methodology set forth in paragraph (g)(3) of this section for adjusting rates for channels added to cable programming service tiers. Operators shall reduce rates by decreases in programming expense plus an additional 7.5% for decreases occurring after May 15, 1994 except with respect to programming cost decreases on channels added after May 15, 1994 for which the rate adjustment methodology in paragraph (g)(3) of this section was used.

(g) *Changes in the number of channels on regulated tiers*—(1) *Generally*. A system may adjust the residual component of its permitted rate for a tier to reflect changes in the number of channels offered on the tier on a quarterly basis. Cable systems shall use FCC Form 1210 (or FCC Form 1211, where applicable) or FCC Form 1240 to justify rate changes made on account of changes in the number of channels on a basic service tier (''BST'') or a cable programming service tier (''CPST''). Such rate adjustments shall be based on any changes in the number of regulated channels that occurred from the end of the last quarter for which an adjustment was previously made through the end of the quarter that has most recently closed preceding the filing of the FCC Form 1210 (or FCC Form 1211, where applicable) or FCC Form 1240. However, when a system deletes channels in a calendar quarter, the system must adjust the residual component of the tier charge in the next calendar quarter to reflect that deletion. Operators must elect between the channel addition rules in paragraphs (g)(2) and (g)(3) of this section the first time they adjust rates after December 31, 1994, to reflect a channel addition to a CPST that occurred on or after May 15, 1994, and must use the elected methodology for all rate adjustments through December 31, 1997. A system that adjusted rates after May 15, 1994, but before January 1, 1995 on account of a change in the number of channels on a CPST that occurred after May 15, 1994, may elect to revise its rates to charge the rates permitted by paragraph (g)(3) of this section on or after January 1, 1995, but is not required to do so as a condition for using the methodology in paragraph (g)(3) of this section for rate adjustments after January 1, 1995. Rates for the BST will be governed exclusively by paragraph (g)(2) of this section, except that where a system offered only one tier on May 14, 1994, the

cable operator will be allowed to elect between paragraphs (g)(2) and (g)(3) of this section as if the tier was a CPST.

(2) *Adjusting rates for increases in the number of channels offered between May 15, 1994, and December 31, 1997, on a basic service tier and at the election of the operator on a cable programming service tier.* The following table shall be used to adjust permitted rates for increases in the number of channels offered between May 15, 1994, and December 31, 1997, on a basic service tier and subject to the conditions in paragraph (g)(1) of this section at the election of the operator on a CPST. The entries in the table provide the cents per channel per subscriber per month by which cable operators will adjust the residual component using FCC Form 1210 (or FCC Form 1211, where applicable) or FCC Form 1240.

Average No. of regulated channels	Per-channel adjustment factor
7	$0.52
7.5	0.45
8	0.40
8.5	0.36
9	0.33
9.5	0.29
10	0.27
10.5	0.24
11	0.22
11.5	0.20
12	0.19
12.5	0.17
13	0.16
13.5	0.15
14	0.14
14.5	0.13
15–15.5	0.12
16	0.11
16.5–17	0.10
17.5–18	0.09
18.5–19	0.08
19.5–21.5	0.07
22–23.5	0.06
24–26	0.05
26.5–29.5	0.04
30–35.5	0.03
36–46	0.02
46.5–99.5	0.01

In order to adjust the residual component of the tier charge when there is an increase in the number of channels on a tier, the operator shall perform the following calculations:

(i) Take the sum of the old total number of channels on tiers subject to regulation (*i.e.*, tiers that are, or could be, regulated but excluding New Product Tiers) and the new total number of channels and divide the resulting number by two;

(ii) Consult the above table to find the applicable per channel adjustment factor for the number of channels produced by the calculations in step (1). For each tier for which there has been an increase in the number of channels, multiply the per-channel adjustment factor times the change in the number of channels on that tier. The result is the total adjustment for that tier.

(3) *Alternative methodology for adjusting rates for changes in the number of channels offered on a cable programming service tier or a single tier system between May 15, 1994, and December 31, 1997.* This paragraph at the Operator's discretion as set forth in paragraph (g)(1) of this section shall be used to adjust permitted rates for a CPST after December 31, 1994, for changes in the number of channels offered on a CPST between May 15, 1994, and December 31, 1997. For purposes of paragraph (g)(3) of this section, a single tier system may be treated as if it were a CPST.

(i) *Operators cap attributable to new channels on all CPSTs through December 31, 1997.* Operators electing to use the methodology set forth in this paragraph may increase their rates between January 1, 1995, and December 31, 1997, by up to 20 cents per channel, exclusive of programming costs, for new channels added to CPSTs on or after May 15, 1994, except that they may not make rate adjustments totalling more than $1.20 per month, per subscriber through December 31, 1996, and by more than $1.40 per month, per subscriber through December 31, 1997 (the ''Operator's Cap''). Except to the extent that the programming costs of such channels are covered by the License Fee Reserve provided for in paragraph (g)(3)(iii) of this section, programming costs associated with channels for which a rate adjustment is made pursuant to this paragraph (g)(3) of this section must fall within the Operators' Cap if the programming costs (including any increases therein) are reflected in rates before January 1, 1997. Inflation adjustments pursuant to paragraph (d)(2) or (e)(2) of this section are not counted against the Operator's Cap.

(ii) *Per channel adjustment.* Operators may increase rates by a per channel adjustment of up to 20 cents per subscriber per month, exclusive of programming costs, for each channel added to a CPST between May 15, 1994, and December 31, 1997, except that an operator may take the per channel adjustment only for channel additions that result in an increase in the highest number of channels offered on all CPSTs as compared to May 14, 1994, and each date thereafter. Any revenues received from a programmer, or shared by a programmer and an operator in connection with the addition of a channel to a CPST shall first be deducted from programming costs for that channel pursuant to paragraph (f)(7) of this section and then, to the extent revenues received from the programmer are greater than the programming costs, shall be deducted from the per channel adjustment. This deduction will apply on a channel by channel basis.

(iii) *License fee reserve.* In addition to the rate adjustments permitted in paragraphs (g)(3)(i) and (g)(3)(ii) of this section, operators that make channel additions on or after May 15, 1994 may increase their rates by a total of 30 cents per month, per subscriber between January 1, 1995, and December 31, 1996, for license fees associated with such channels (the ''License Fee Reserve''). The License Fee Reserve may be applied against the initial license fee and any increase in the license fee for such channels during this period. An operator may pass-through to subscribers more than the 30 cents between January 1, 1995, and December 31, 1996, for license fees associated with channels added after May 15, 1994, provided that the total amount recovered from subscribers for such channels, including the License Fee Reserve, does not exceed $1.50 per subscriber, per month. After December 31, 1996, license fees may be passed through to subscribers pursuant to paragraph (f) of this section, except that license fees associated with channels added pursuant to this paragraph (3) will not be eligible for the 7.5% mark-up on increases in programming costs.

(iv) *Timing.* For purposes of determining whether a rate increase counts against the maximum rate increases specified in paragraphs (g)(3)(i) through (g)(3)(ii) of this section, the relevant date shall be when rates are increased as a result of channel additions, not when the addition occurs.

(4) *Deletion of channels.* When dropping a channel from a BST or CPST, operators shall reflect the net reduction in external costs in their rates pursuant to paragraphs (d)(3)(i) and (d)(3)(ii) of this section, or paragraphs (e)(2)(ii)(A) and (e)(2)(ii)(B) of this section. With respect to channels to which the 7.5% mark-up on programming costs applied pursuant to paragraph (f)(8) of this section, the operator shall treat the mark-up as part of its programming costs and subtract the mark-up from its external costs. Operators shall also reduce the price of that tier by the ''residual'' associated with that channel. For channels that were on a BST or CPST on May 14, 1994, or channels added after that date pursuant to paragraph (g)(2) of this section, the per channel residual is the charge for their tier, minus the external costs for the tier, and any per channel adjustments made after that date, divided by the total number of channels on the tier minus the number of channels on the tier that received the per channel adjustment specified in paragraph (g)(3) of this section. For channels added to a CPST after May 14, 1994, pursuant to paragraph (g)(3) of this section, the residuals shall be the actual per channel adjustment taken for that channel when it was added to the tier.

(5) *Movement of Channels Between Tiers.* When a channel is moved from a CPST or a BST to another CPST or BST, the price of the tier from which the channel is dropped shall be reduced to reflect the decrease in programming costs and residual as described in paragraph (g)(4) of this section. The residual associated with the shifted channel shall then be converted from per subscriber to aggregate numbers to ensure aggregate revenues from the channel remain the same when the channel is moved. The aggregate residual associated with the shifted channel may be shifted to the tier to which the channel is being moved. The residual shall then be converted to per subscriber figures on the new tier, plus any subsequent

inflation adjustment. The price of the tier to which the channel is shifted may then be increased to reflect this amount. The price of that tier may also be increased to reflect any increase in programming cost. An operator may not shift a channel for which it received a per channel adjustment pursuant to paragraph (g)(3) of this section from a CPST to a BST.

(6) *Substitution of channels on a BST or CPST.* If an operator substitutes a new channel for an existing channel on a CPST or a BST, no per channel adjustment may be made. Operators substituting channels on a CPST or a BST shall be required to reflect any reduction in programming costs in their rates and may reflect any increase in programming costs pursuant to paragraphs (d)(3)(i) and (d)(3)(ii), or paragraphs (e)(2)(ii)(A) and (e)(2)(ii)(B) of this section. If the programming cost for the new channel is greater than the programming cost for the replaced channel, and the operator chooses to pass that increase through to subscribers, the excess shall count against the License Fee Reserve or the Operator Cap when the increased cost is passed through to subscribers. Where an operator substitutes a new channel for a channel on which a 7.5% mark-up on programming costs was taken pursuant to paragraph (f)(8) of this section, the operator may retain the 7.5% mark-up on the license fee of the dropped channel to the extent that it is no greater than 7.5% of programming cost of the new service.

(7) *Headend upgrades.* When adding channels to CPSTs and single-tier systems, cable systems that are owned by a small cable company and incur additional monthly per subscriber headend costs of one full cent or more for an additional channel may choose among the methodologies set forth in paragraphs (g)(2) and (g)(3) of this section. In addition, such systems may increase rates to recover the actual cost of the headend equipment required to add up to seven such channels to CPSTs and single-tier systems, not to exceed $5,000 per additional channel. Rate increases pursuant to this paragraph may occur between January 1, 1995, and December 31, 1997, as a result of additional channels offered on those tiers after May 14, 1994. Headend costs shall be depreciated over the useful life of the equipment. The rate of return on this investment shall not exceed 11.25 percent. In order to recover costs for headend equipment pursuant to this paragraph, systems must certify to the Commission their eligibility to use this paragraph, and the level of costs they have actually incurred for adding the headend equipment and the depreciation schedule for the equipment.

(8) *Sunset provision.* Paragraph (g) of this section shall cease to be effective on January 1, 1998 unless renewed by the Commission.

(h) Permitted charges for a tier shall be determined in accordance with forms and associated instructions established by the Commission.

(i) *Cost of Service Charge.* (1) For purposes of this section, a monthly cost-of-service charge for a basic service tier or a cable programming service tier is an amount equal to the annual revenue requirement for that tier divided by a number that is equal to 12 times the average number of subscribers to that tier during the test year, except that a monthly charge for a system or tier in service less than one year shall be equal to the projected annual revenue requirement for the first 12 months of operation or service divided by a number that is equal to 12 times the projected average number of subscribers during the first 12 months of operation or service. The calculation of the average number of subscribers shall include all subscribers, regardless of whether they receive service at full rates or at discounts.

(2) A test year for an initial regulated charge is the cable operator's fiscal year preceding the initial date of regulation. A test year for a change in the basic service charge that is after the initial date of regulation is the cable operator's fiscal year preceding the mailing or other delivery of written notice pursuant to Section 76.932. A test year for a change in a cable programming service charge after the initial date of regulation is the cable operator's fiscal year preceding the filing of a complaint regarding the increase.

(3) The annual revenue requirement for a tier is the sum of the return component and the expense component for that tier.

(4) The return component for a tier is the average allowable test year ratebase allocable to the tier adjusted for known and measurable changes occurring between the end of the test year and the effective date of the rate multiplied by the rate of return specified by the Commission or franchising authority.

(5) The expense component for a tier is the sum of allowable test year expenses allocable to the tier adjusted for known and measurable changes occurring between the end of the test year and the effective date of the rate.

(6) The ratebase may include the following:

(i) Prudent investment by a cable operator in tangible plant that is used and useful in the provision of regulated cable services less accumulated depreciation. Tangible plant in service shall be valued at the actual money cost (or the money value of any consideration other than money) at the time it was first used to provide cable service, except that in the case of systems purchased before May 15, 1994 shall be presumed to equal 66% of the total purchase price allocable to assets (including tangible and intangible assets) used to provide regulated services. The 66% allowance shall not be used to justify any rate increase taken after the effective date of this rule. The actual money cost of plant may include an allowance for funds used during construction at the prime rate or the operator's actual cost of funds during construction. Cost overruns are presumed to be imprudent investment in the absence of a showing that the overrun occurred through no fault of the operator.

(ii) An allowance for start-up losses including depreciation, amortization and interest expenses related to assets that are included in the ratebase. Capitalized start-up losses, may include cumulative net losses, plus any unrecovered interest expenses connected to funding the regulated ratebase, amortized over the unexpired life of the franchise, commencing with the end of the loss accumulation phase. However, losses attributable to accelerated depreciation methodologies are not permitted.

(iii) An allowance for start-up losses, if any, that is equal to the lesser of the first two years of operating costs or accumulated losses incurred until the system reached the end of its prematurity stage as defined in Financial Accounting Standards Board Standard 51 (''FASB 51'') less straight-line amortization over a reasonable period not exceeding 15 years that commences at the end of the prematurity phase of operation.

(iv) Intangible assets less amortization that reflect the original costs prudently incurred by a cable operator in organizing and incorporating a company that provides regulated cable services, obtaining a government franchise to provide regulated cable services, or obtaining patents that are used and useful in the provision of cable services.

(v) The cost of customer lists if such costs were capitalized during the prematurity phase of operations less amortization.

(vi) An amount for working capital to the extent that an allowance or disallowance for funds needed to sustain the ongoing operations of the regulated cable service is demonstrated.

(vii) Other intangible assets to the extent the cable operator demonstrates that the asset reflects costs incurred in an activity or transaction that produced concrete benefits or savings for subscribers to regulated cable services that would not have been realized otherwise and the cable operator demonstrates that a return on such an asset does not exceed the value of such a subscriber benefit.

(viii) The portion of the capacity of plant not currently in service that will be placed in service within twelve months of the end of the test year.

(7) Deferred income taxes accrued after the date upon which the operator became subject to regulation shall be deducted from items included in the ratebase.

(8) Allowable expenses may include the following:

(i) All regular expenses normally incurred by a cable operator in the provision of regulated cable service, but not

including any lobbying expense, charitable contributions, penalties and fines paid on account of violations of statutes or rules, or membership fees in social, service, recreational or athletic clubs or organizations.

(ii) Reasonable depreciation expense attributable to tangible assets allowable in the ratebase.

(iii) Reasonable amortization expense for prematurely abandoned tangible assets formerly includable in the ratebase that are amortized over the remainder of the original expected life of the asset.

(iv) Reasonable amortization expense for start-up losses and capitalized intangible assets that are includable in ratebase.

(v) Taxes other than income taxes attributable to the provision of regulated cable services.

(vi) An income tax allowance.

(j) *Network upgrade rate increase.* (1) Cable operators that undertake significant network upgrades requiring added capital investment may justify an increase in rates for regulated services by demonstrating that the capital investment will benefit subscribers, including providing television broadcast programming in a digital format.

(2) A rate increase on account of upgrades shall not be assessed on customers until the upgrade is complete and providing benefits to customers of regulated services.

(3) Cable operators seeking an upgrade rate increase have the burden of demonstrating the amount of the net increase in costs, taking into account current depreciation expense, likely changes in maintenance and other costs, changes in regulated revenues and expected economies of scale.

(4) Cable operators seeking a rate increase for network upgrades shall allocate net cost increases in conformance with the cost allocation rules as set forth in § 76.924.

(5) Cable operators that undertake significant upgrades shall be permitted to increase rates by adding the benchmark/price cap rate to the rate increment necessary to recover the net increase in cost attributable to the upgrade.

(k) *Hardship rate relief.* A cable operator may adjust charges by an amount specified by the Commission for the cable programming service tier or the franchising authority for the basic service tier if it is determined that:

(1) Total revenues from cable operations, measured at the highest level of the cable operator's cable service organization, will not be sufficient to enable the operator to attract capital or maintain credit necessary to enable the operator to continue to provide cable service;

(2) The cable operator has prudent and efficient management; and

(3) Adjusted charges on account of hardship will not result in total charges for regulated cable services that are excessive in comparison to charges of similarly situated systems.

(l) *Cost of service showing.* A cable operator that elects to establish a charge, or to justify an existing or changed charge for regulated cable service, based on a cost-of-service showing must submit data to the Commission or the franchising authority in accordance with forms established by the Commission. The cable operator must also submit any additional information requested by franchising authorities or the Commission to resolve questions in cost-of-service proceedings.

(m) *Subsequent cost of service charges.* No cable operator may use a cost-of-service showing to justify an increase in any charge established on a cost-of-service basis for a period of 2 years after that rate takes effect, except that the Commission or the franchising authority may waive this prohibition upon a showing of unusual circumstances that would create undue hardship for a cable operator.

(n) *Further rate adjustments—Uniform rates.* A cable operator that has established rates in accordance with this section may then be permitted to establish a uniform rate for uniform services offered in multiple franchise areas. This rate shall be determined in accordance with the Commission's procedures and requirements set forth in CS Docket No. 95–174.

[58 FR 29753, May 21, 1993]

EDITORIAL NOTE: For FEDERAL REGISTER citations affecting § 76.922 see the List of CFR Sections Affected, which appears in the Finding Aids section of the printed volume and at www.fdsys.gov.

EFFECTIVE DATE NOTES: 1. At 60 FR 62633, Dec. 6, 1994, in § 76.922, paragraph (e) was revised. Paragraphs (e)(1) and (e)(2) contain information collection and recordkeeping requirements and will not become effective until approval has been given by the Office of Management and Budget.

2. At 60 FR 52113, Oct. 5, 1995, in § 76.922, paragraphs (e) through (k) were redesignated as (g) through (m); (c), (d), and new (g) through new (m) were revised; a new (e) and a new (f) were added. This amendment contains information collection and recordkeeping requirements and will not become effective until 30 days after approval has been given by the Office of Management and Budget.

3. At 61 FR 9367, Mar. 8, 1996, in § 76.922, paragraphs (i)(6)(i) and (i)(7) were revised; (i)(6)(ii) through (vii) were redesignated as (i)(6)(iii) through (viii); a new (i)(6)(ii) was added. This amendment contains information collection and recordkeeping requirements and will not become effective until approval has been given by the Office of Management and Budget.

4. At 62 FR 6495, Feb. 12, 1997, in § 76.922, paragraph (f)(4) was revised. This amendment contains information collection and recordkeeping requirements and will not become effective until approval has been given by the Office of Management and Budget.

§ 76.923 Rates for equipment and installation used to receive the basic service tier.

(a) *Scope.* (1) The equipment regulated under this section consists of all equipment in a subscriber's home, provided and maintained by the operator, that is used to receive the basic service tier, regardless of whether such equipment is additionally used to receive other tiers of regulated programming service and/or unregulated service. Such equipment shall include, but is not limited to:

(i) Converter boxes;

(ii) Remote control units; and

(iii) Inside wiring.

(2) Subscriber charges for such equipment shall not exceed charges based on actual costs in accordance with the requirements set forth in this section.

Subscriber charges for such equipment shall not exceed charges based on actual costs in accordance with the requirements set forth below.

(b) *Unbundling.* A cable operator shall establish rates for remote control units, converter boxes, other customer equipment, installation, and additional connections separate from rates for basic tier service. In addition, the rates for such equipment and installations shall be unbundled one from the other.

(c) *Equipment basket.* A cable operator shall establish an Equipment Basket, which shall include all costs associated with providing customer equipment and installation under this section. Equipment Basket costs shall be limited to the direct and indirect material and labor costs of providing, leasing, installing, repairing, and servicing customer equipment, as determined in accordance with the cost accounting and cost allocation requirements of § 76.924, except that operators do not have to aggregate costs in a manner consistent with the accounting practices of the operator on April 3, 1993. The Equipment Basket shall not include general administrative overhead including marketing expenses. The Equipment Basket shall include a reasonable profit.

(1) *Customer equipment.* Costs of customer equipment included in the Equipment Basket may be aggregated, on a franchise, system, regional, or company level, into broad categories. Except to the extent indicated in paragraph (c)(2) of this section, such categorization may be made, provided that each category includes only equipment of the same type, regardless of the levels of functionality of the equipment within each such broad category. When submitting its equipment costs based on average charges, the cable operator must provide a general description of the averaging methodology employed and a justification that its averaging methodology produces reasonable equipment rates. Equipment rates should be set at the same organizational level at which an operator aggregates its costs.

(2) *Basic service tier only equipment.* Costs of customer equipment used by basic-only subscribers may not be aggregated with the costs of equipment used by non-basic-only subscribers. Costs of customer equipment used by basic-only subscribers may, however, be aggregated, consistent with an operator's aggregation under paragraph (c)(1) of this section, on a franchise, system, regional, or company level. The prohibition against aggregation

applies to subscribers, not to a particular type of equipment. Alternatively, operators may base its basic-only subscriber cost aggregation on the assumption that all basic-only subscribers use equipment that is the lowest level and least expensive model of equipment offered by the operator, even if some basic-only subscribers actually have higher level, more expensive equipment.

(3) *Installation costs.* Installation costs, consistent with an operator's aggregation under paragraph (c)(1) of this section, may be aggregated, on a franchise, system, regional, or company level. When submitting its installation costs based on average charges, the cable operator must provide a general description of the averaging methodology employed and a justification that its averaging methodology produces reasonable equipment rates. Installation rates should be set at the same organizational level at which an operator aggregates its costs.

(d) *Hourly service charge.* A cable operator shall establish charges for equipment and installation using the Hourly Service Charge (HSC) methodology. The HSC shall equal the operator's annual Equipment Basket costs, excluding the purchase cost of customer equipment, divided by the total person hours involved in installing, repairing, and servicing customer equipment during the same period. The HSC is calculated according to the following formula:

$$HSC = \frac{EB - CE}{H}$$

Where, EB=annual Equipment Basket Cost; CE=annual purchase cost of all customer equipment; and H=person hours involved in installing and repairing equipment per year. The purchase cost of customer equipment shall include the cable operator's invoice price plus all other costs incurred with respect to the equipment until the time it is provided to the customer.

(e) *Installation charges.* Installation charges shall be either:

(1) The HSC multiplied by the actual time spent on each individual installation; or

(2) The HSC multiplied by the average time spent on a specific type of installation.

(f) *Remote charges.* Monthly charges for rental of a remote control unit shall consist of the average annual unit purchase cost of remotes leased, including acquisition price and incidental costs such as sales tax, financing and storage up to the time it is provided to the customer, added to the product of the HSC times the average number of hours annually repairing or servicing a remote, divided by 12 to determine the monthly lease rate for a remote according to the following formula:

$$\text{Monthly Charge} = \frac{UCE + (HSC \times HR)}{12}$$

Where, HR = average hours repair per year; and UCE = average annual unit cost of remote.

(g) *Other equipment charges.* The monthly charge for rental of converter boxes and other customer equipment shall be calculated in the same manner as for remote control units. Separate charges may be established for each category of other customer equipment.

(h) *Additional connection charges.* The costs of installation and monthly use of additional connections shall be recovered as charges associated with the installation and equipment cost categories, and at rate levels determined by the actual cost methodology presented in the foregoing paragraphs (e), (f), and (g) of this section. An operator may recover additional programming costs and the costs of signal boosters on the customers premises, if any, associated with the additional connection as a separate monthly unbundled charge for additional connections.

(i) *Charges for equipment sold.* A cable operator may sell customer premises equipment to a subscriber. The equipment price shall recover the operator's cost of the equipment, including costs associated with storing and preparing the equipment for sale up to the time it is sold to the customer, plus a reasonable profit. An operator may sell service contracts for the maintenance and repair of equipment sold to subscribers. The charge for a service contract shall be the HSC times the estimated average number of hours for maintenance and repair over the life of the equipment.

(j) *Promotions.* A cable operator may offer equipment or installation at charges below those determined under paragraphs (e) through (g) of this section, as long as those offerings are reasonable in scope in relation to the operator's overall offerings in the Equipment Basket and not unreasonably discriminatory. Operators may not recover the cost of a promotional offering by increasing charges for other Equipment Basket elements, or by increasing programming service rates above the maximum monthly charge per subscriber prescribed by these rules. As part of a general cost-of-service showing, an operator may include the cost of promotions in its general system overhead costs.

(k) *Franchise fees.* Equipment charges may include a properly allocated portion of franchise fees.

(l) *Company-wide averaging of equipment costs.* For the purpose of developing unbundled equipment charges as required by paragraph (b) of this section, a cable operator may average the equipment costs of its small systems at any level, or several levels, within its operations. This company-wide averaging applies only to an operator's small systems as defined in §76.901(c); is permitted only for equipment charges, not installation charges; and may be established only for similar types of equipment. When submitting its equipment costs based on average charges to the local franchising authority or the Commission, an operator that elects company-wide averaging of equipment costs must provide a general description of the averaging methodology employed and a justification that its averaging methodology produces reasonable equipment rates. The local authority or the Commission may require the operator to set equipment rates based on the operator's level of averaging in effect on April 3, 1993, as required by §76.924(d).

(m) Cable operators shall set charges for equipment and installations to recover Equipment Basket costs. Such charges shall be set, consistent with the level at which Equipment Basket costs are aggregated as provided in §76.923(c). Cable operators shall maintain adequate documentation to demonstrate that charges for the sale and lease of equipment and for installations have been developed in accordance with the rules set forth in this section.

(n) *Timing of filings.* An operator shall file FCC Form 1205 in order to establish its maximum permitted rates at the following times:

(1) When the operator sets its initial rates under either the benchmark system or through a cost-of-service showing;

(2) Within 60 days of the end of its fiscal year, for an operator that adjusts its rates under the system described in Section 76.922(d) that allows it to file up to quarterly;

(3) On the same date it files its FCC Form 1240, for an operator that adjusts its rates under the annual rate adjustment system described in Section 76.922(e). If an operator elects not to file an FCC Form 1240 for a particular year, the operator must file a Form 1205 on the anniversary date of its last Form 1205 filing; and

(4) When seeking to adjust its rates to reflect the offering of new types of customer equipment other than in conjunction with an annual filing of Form 1205, 60 days before it seeks to adjust its rates to reflect the offering of new types of customer equipment.

(o) *Introduction of new equipment.* In setting the permitted charge for a new type of equipment at a time other than at its annual filing, an operator shall only complete Schedule C and the relevant step of the Worksheet for Calculating Permitted Equipment and Installation Charges of a Form 1205. The operator shall rely on entries from its most recently filed FCC Form 1205 for information not specifically related to the new equipment, including but not limited to the Hourly Service Charge. In calculating the annual maintenance and service hours for the new equipment, the operator should base its entry on the average annual expected time required to maintain the unit, *i.e.*, expected service hours required over the life of the equipment unit being introduced divided by the equipment unit's expected life.

[58 FR 29753, May 21, 1993, as amended at 59 FR 17960, 17973, Apr. 15, 1994; 60 FR 52118, Oct. 5, 1995; 61 FR 32709, June 25, 1996]

§ 76.924 Allocation to service cost categories.

(a) *Applicability.* The requirements of this section are applicable to cable operators for which the basic service tier is regulated by local franchising authorities or the Commission, or, with respect to a cable programming services tier, for which a complaint has been filed with the Commission. The requirements of this section are applicable for purposes of rate adjustments on account of external costs and for cost-of-service showings.

(b) *Accounting requirements.* Cable operators electing cost-of-service regulation or seeking rate adjustments due to changes in external costs shall maintain their accounts:

(1) in accordance with generally accepted accounting principles; and

(2) in a manner that will enable identification of appropriate investments, revenues, and expenses.

(c) *Accounts level.* Except to the extent indicated below, cable operators electing cost of service regulation or seeking adjustments due to changes in external costs shall identify investments, expenses and revenues at the franchise, system, regional, and/or company level(s) in a manner consistent with the accounting practices of the operator on April 3, 1993. However, in all events, cable operators shall identify at the franchise level their costs of franchise requirements, franchise fees, local taxes and local programming.

(d) *Summary accounts.* (1) Cable operators filing for cost-of-service regulation, other than small systems owned by small cable companies, shall report all investments, expenses, and revenue and income adjustments accounted for at the franchise, system, regional and/or company level(s) to the summary accounts listed below.

(e) *Allocation to service cost categories.* (1) For cable operators electing cost-of-service regulation, investments, expenses, and revenues contained in the summary accounts identified in paragraph (d) of this section shall be allocated among the Equipment Basket, as specified in §76.923, and the following service cost categories:

(i) Basic service cost category. The basic service category, shall include the cost of providing basic service as defined by §76.901(a). The basic service cost category may only include allowable costs as defined by §§76.922(g) through 76.922(k).

(ii) Cable programming services cost category. The cable programming services category shall include the cost of providing cable programming services as defined by §76.901(b). This service cost category shall contain subcategories that represent each programming tier that is offered as a part of the operator's cable programming services. All costs that are allocated to the cable programming service cost cateogry shall be further allocated among the programming tiers in this category. The cable programming service cost category may include only allowable costs as defined in §76.922(g) through 76.922(k).

(iii) All other services cost category. The all other services cost category shall include the costs of providing all other services that are not included the basic service or a cable programming services cost categories as defined in paragraphs (e)(1)(i) and (ii) of this section.

(2) Cable operators seeking an adjustment due to changes in external costs identified in FCC Form 1210 shall allocate such costs among the equipment basket, as specified in §76.923, and the following service cost categories:

(i) The basic service category as defined by paragraph (e)(1)(i) of this section;

(ii) The cable programming services category as defined by paragraph (e)(1)(ii) of this section;

(iii) The all other services cost category as defined by paragraph (e)(1)(iii) of this section.

(f) *Cost allocation requirements.* (1) Allocations of investments, expenses and revenues among the service cost categories and the equipment basket shall be made at the organizational level in which such costs and revenues have been identified for accounting purposes pursuant to §76.924(c).

(2) Costs of programming and retransmission consent fees shall be directly assigned or allocated only to the service cost category in which the programming or broadcast signal at issue is offered.

(3) Costs of franchise fees shall be allocated among the equipment basket and the service cost categories in a manner that is most consistent with the methodology of assessment of franchise fees by local authorities.

(4) Costs of public, educational, and governmental access channels carried on the basic tier shall be directly assigned to the basic tier where possible.

(5) Commission cable television system regulatory fees imposed pursuant

to 47 U.S.C. 159 shall be directly assigned to the basic service tier.

(6) All other costs that are incurred exclusively to support the equipment basket or a specific service cost category shall be directly assigned to that service cost category or the equipment basket where possible.

(7) Costs that are not directly assigned shall be allocated to the service cost categories in accordance with the following allocation procedures:

(i) Wherever possible, common costs for which no allocator has been specified by the Commission are to be allocated among the service cost categories and the equipment basket based on direct analysis of the origin of the costs.

(ii) Where allocation based on direct analysis is not possible, common costs for which no allocator has been specified by the Commission shall, if possible, be allocated among the service costs categories and the equipment basket based on indirect, cost-causative linkage to other costs directly assigned or allocated to the service cost categories and the equipment basket.

(iii) Where neither direct nor indirect measures of cost allocation can be found, common costs shall be allocated to each service cost category based on the ratio of all other costs directly assigned and attributed to a service cost category over total costs directly or indirectly assigned and directly or indirectly attributable.

(g) *Cost identification at the franchise level.* After costs have been directly assigned to and allocated among the service cost categories and the equipment basket, cable operators that have aggregated costs at a higher level than the franchise level must identify all applicable costs at the franchise level in the following manner:

(1) Recoverable costs that have been identified at the highest organizational level at which costs have been identified shall be allocated to the next (lower) organizational level at which recoverable costs have been identified on the basis of the ratio of the total number of subscribers served at the lower level to the total number of subscribers served at the higher level.

(2) Cable operators shall repeat the procedure specified in paragraph (g)(1) of this section at every organizational level at which recoverable costs have been identified until such costs have been allocated to the franchise level.

(h) *Part-time channels.* In situations where a single channel is divided on a part-time basis and is used to deliver service associated with different tiers or with pay per channel or pay per view service, a reasonable and documented allocation of that channel between services shall be required along with the associated revenues and costs.

(i) *Transactions and affiliates.* Adjustments on account of external costs and rates set on a cost-of-service basis shall exclude any amounts not calculated in accordance with the following:

(1) Charges for assets purchased by or transferred to the regulated activity of a cable operator from affiliates shall equal the invoice price if that price is determined by a prevailing company price. The invoice price is the prevailing company price if the affiliate has sold a substantial number of like assets to nonaffiliates. If a prevailing company price for the assets received by the regulated activity is not available, the changes for such assets shall be the lower of their cost to the originating activity of the affiliated group less all applicable valuation reserves, or their fair market value.

(2) The proceeds from assets sold or transferred from the regulated activity of the cable operator to affiliates shall equal the prevailing company price if the cable operator has sold a substantial number of like assets to nonaffiliates. If a prevailing company price is not available, the proceeds from such sales shall be determined at the higher of cost less all applicable valuation reserves, or estimated fair market value of the asset.

(3) Charges for services provided to the regulated activity of a cable operator by an affiliate shall equal the invoice price if that price is determined by a prevailing company price. The invoice price is the prevailing company price if the affiliate has sold like services to a substantial number of nonaffiliates. If a prevailing company price for the services received by the regulated activity is not available, the charges of such services shall be at cost.

(4) The proceeds from services sold or transferred from the regulated activity of the cable operator to affiliates shall equal the prevailing company price if the cable operator has sold like services to a substantial number of non-affiliates. If a prevailing company price is not available, the proceeds from such sales shall be determined at cost.

(5) For purposes of § 76.924(i)(1) through 76.924(i)(4), costs shall be determined in accordance with the standards and procedures specified in § 76.922 and paragraphs (b) and (d) of this section.

(6) For purposes of this section, entities are affiliated if either entity has an attributable interest in the other or if a third party has an attributable interest in both entities.

(7) Attributable interest shall be defined by reference to the criteria set forth in Notes 1 through 5 to § 76.501 provided, however, that:

(i) The limited partner and LLC/LLP/RLLP insulation provisions of Note 2(f) shall not apply; and

(ii) The provisions of Note 2(a) regarding five (5) percent interests shall include all voting or nonvoting stock or limited partnership equity interests of five (5) percent or more.

(j) *Unrelated expenses and revenues.* Cable operators shall exclude from cost categories used to develop rates for the provision of regulated cable service, equipment, and leased commercial access, any direct or indirect expenses and revenues not related to the provision of such services. Common costs of providing regulated cable service, equipment, and leased commercial access and unrelated activities shall be allocated between them in accordance with paragraph (f) of this section.

[58 FR 29753, May 21, 1993, as amended at 59 FR 17990, Apr. 15, 1994; 59 FR 53115, Oct. 21, 1994; 60 FR 35865, July 12, 1995; 61 FR 9367, Mar. 8, 1996; 64 FR 67197, Dec. 1, 1999]

§ 76.925 Costs of franchise requirements.

(a) Franchise requirement costs may include cost increases required by the franchising authority in the following categories:

(1) Costs of providing PEG access channels;

(2) Costs of PEG access programming;

(3) Costs of technical and customer service standards to the extent that they exceed federal standards;

(4) Costs of institutional networks and the provision of video services, voice transmissions and data transmissions to or from governmental institutions and educational institutions, including private schools, to the extent such services are required by the franchise agreement; and

(5) When the operator is not already in the process of upgrading the system, costs of removing cable from utility poles and placing the same cable underground.

(b) The costs of satisfying franchise requirements to support public, educational, and governmental channels shall consist of the sum of:

(1) All per channel costs for the number of channels used to meet franchise requirements for public, educational, and governmental channels;

(2) Any direct costs of meeting such franchise requirements; and

(3) A reasonable allocation of general and administrative overhead.

(c) The costs of satisfying any requirements under the franchise other than PEG access costs shall consist of the direct and indirect costs including a reasonable allocation of general and administrative overhead.

[58 FR 29753, May 21, 1993, as amended at 60 FR 52119, Oct. 5, 1995]

§ 76.930 Initiation of review of basic cable service and equipment rates.

A cable operator shall file its schedule of rates for the basic service tier and associated equipment with a franchising authority within 30 days of receiving written notification from the franchising authority that the franchising authority has been certified by the Commission to regulate rates for the basic service tier. Basic service and equipment rate schedule filings for existing rates or proposed rate increases (including increases in the baseline channel change that results from reductions in the number of channels in a tier) must use the appropriate official FCC form, a copy thereof, or a copy generated by FCC software. Failure to file on the official FCC form, a copy thereof, or a copy generated by

FCC software, may result in the imposition of sanctions specified in §76.937(d). A cable operator shall include rate cards and channel line-ups with its filing and include an explanation of any discrepancy in the figures provided in these documents and its rate filing.

[59 FR 17973, Apr. 15, 1994]

§ 76.933 Franchising authority review of basic cable rates and equipment costs.

(a) After a cable operator has submitted for review its existing rates for the basic service tier and associated equipment costs, or a proposed increase in these rates (including increases in the baseline channel change that results from reductions in the number of channels in a tier) under the quarterly rate adjustment system pursuant to Section 76.922(d), the existing rates will remain in effect or the proposed rates will become effective after 30 days from the date of submission; *Provided, however,* that the franchising authority may toll this 30-day deadline for an additional time by issuing a brief written order as described in paragraph (b) within 30 days of the rate submission explaining that it needs additional time to review the rates.

(b) If the franchising authority is unable to determine, based upon the material submitted by the cable operator, that the existing, or proposed rates under the quarterly adjustment system pursuant to Section 76.922(d), are within the Commission's permitted basic service tier charge or actual cost of equipment as defined in §§76.922 and 76.923, or if a cable operator has submitted a cost-of-service showing pursuant §§76.937(c) and 76.924, seeking to justify a rate above the Commission's basic service tier charge as defined in §§76.922 and 76.923, the franchising authority may toll the 30-day deadline in paragraph (a) of this section to request and/or consider additional information or to consider the comments from interested parties as follows:

(1) For an additional 90 days in cases not involving cost-of-service showings; or

(2) For an additional 150 days in cases involving cost-of-service showings.

(c) If a franchising authority has availed itself of the additional 90 or 150 days permitted in paragraph (b) of this section, and has taken no action within these additional time periods, then the proposed rates will go into effect at the end of the 90 or 150 day periods, or existing rates will remain in effect at such times, subject to refunds if the franchising authority subsequently issues a written decision disapproving any portion of such rates: *Provided, however,* That in order to order refunds, a franchising authority must have issued a brief written order to the cable operator by the end of the 90 or 150-day period permitted in paragraph (b) of this section directing the operator to keep an accurate account of all amounts received by reason of the rate in issue and on whose behalf such amounts were paid.

(d) A franchising authority may request, pursuant to a petition for special relief under §76.7, that the Commission examine a cable operator's cost-of-service showing, submitted to the franchising authority as justification of basic tier rates, within 30 days of receipt of a cost-of-service showing. In its petition, the franchising authority shall document its reasons for seeking Commission assistance. The franchising authority shall issue an order stating that it is seeking Commission assistance and serve a copy before the 30-day deadline on the cable operator submitting the cost showing. The cable operator shall deliver a copy of the cost showing, together with all relevant attachments, to the Commission within 15 days of receipt of the local authority's notice to seek Commission assistance. The Commission shall notify the local franchising authority and the cable operator of its ruling and of the basic tier rate, as established by the Commission. The rate shall take effect upon implementation by the franchising authority of such ruling and refund liability shall be governed thereon. The Commission's ruling shall be binding on the franchising authority and the cable operator. A cable operator or franchising authority may seek reconsideration of the ruling pursuant to §1.106(a)(1) of this chapter or review by the Commission pursuant to §1.115(a) of this chapter.

(e) Notwithstanding paragraphs (a) through (d) of this section, when the franchising authority is regulating basic service tier rates, a cable operator that sets its rates pursuant to the quarterly rate adjustment system pursuant to §76.922(d) may increase its rates for basic service to reflect the imposition of, or increase in, franchise fees or Commission cable television system regulatory fees imposed pursuant to 47 U.S.C. 159. For the purposes of paragraphs (a) through (c) of this section, the increased rate attributable to Commission regulatory fees or franchise fees shall be treated as an ''existing rate'', subject to subsequent review and refund if the franchising authority determines that the increase in basic tier rates exceeds the increase in regulatory fees or in franchise fees allocable to the basic tier. This determination shall be appealable to the Commission pursuant to §76.944. When the Commission is regulating basic service tier rates pursuant to §76.945 or cable programming service rates pursuant to §76.960, an increase in those rates resulting from franchise fees or Commission regulatory fees shall be reviewed by the Commission pursuant to the mechanisms set forth in §76.945. A cable operator must adjust its rates to reflect decreases in franchise fees or Commission regulatory fees within the periods set forth in §76.922(d)(3)(i),(iii).

(f) For an operator that sets its rates pursuant to the quarterly rate adjustment system pursuant to Section 76.922(d), cable television system regulatory fees assessed by the Commission pursuant to 47 U.S.C. §159 shall be recovered in monthly installments during the fiscal year following the year for which the payment was imposed. Payments shall be collected in equal monthly installments, except that for so many months as may be necessary to avoid fractional payments, an additional $0.01 payment per month may be collected. All such additional payments shall be collected in the last month or months of the fiscal year, so that once collections of such payments begin there shall be no month remaining in the year in which the operator is not entitled to such an additional payment. Operators may not assess interest. Operators may provide notice of the entire fiscal year's regulatory fee pass-through in a single notice.

(g) A cable operator that submits for review a proposed change in its existing rates for the basic service tier and associated equipment costs using the annual filing system pursuant to Section 76.922(e) shall do so no later than 90 days from the effective date of the proposed rates. The franchising authority will have 90 days from the date of the filing to review it. However, if the franchising authority or its designee concludes that the operator has submitted a facially incomplete filing, the franchising authority's deadline for issuing a decision, the date on which rates may go into effect if no decision is issued, and the period for which refunds are payable will be tolled while the franchising authority is waiting for this information, provided that, in order to toll these effective dates, the franchising authority or its designee must notify the operator of the incomplete filing within 45 days of the date the filing is made.

(1) If there is a material change in an operator's circumstances during the 90-day review period and the change affects the operator's rate change filing, the operator may file an amendment to its Form 1240 prior to the end of the 90-day review period. If the operator files such an amendment, the franchising authority will have at least 30 days to review the filing. Therefore, if the amendment is filed more than 60 days after the operator made its initial filing, the operator's proposed rate change may not go into effect any earlier than 30 days after the filing of its amendment. However, if the operator files its amended application on or prior to the sixtieth day of the 90-day review period, the operator may implement its proposed rate adjustment, as modified by the amendment, 90 days after its initial filing.

(2) If a franchising authority has taken no action within the 90-day review period, then the proposed rates may go into effect at the end of the review period, subject to a prospective rate reduction and refund if the franchising authority subsequently issues a written decision disapproving any portion of such rates, *provided, however,* that in order to order a prospective

rate reduction and refund, if an operator inquires as to whether the franchising authority intends to issue a rate order after the initial review period, the franchising authority or its designee must notify the operator of its intent in this regard within 15 days of the operator's inquiry. If a proposed rate goes into effect before the franchising authority issues its rate order, the franchising authority will have 12 months from the date the operator filed for the rate adjustment to issue its rate order. In the event that the franchising authority does not act within this 12-month period, it may not at a later date order a refund or a prospective rate reduction with respect to the rate filing.

(3) At the time an operator files its rates with the franchising authority, the operator may give customers notice of the proposed rate changes. Such notice should state that the proposed rate change is subject to approval by the franchising authority. If the operator is only permitted a smaller increase than was provided for in the notice, the operator must provide an explanation to subscribers on the bill in which the rate adjustment is implemented. If the operator is not permitted to implement any of the rate increase that was provided for in the notice, the operator must provide an explanation to subscribers within 60 days of the date of the franchising authority's decision. Additional advance notice is only required in the unlikely event that the rate exceeds the previously noticed rate.

(4) If an operator files for a rate adjustment under Section 76.922(e)(2)(iii)(B) for the addition of required channels to the basic service tier that the operator is required by federal or local law to carry, or, if a single-tier operator files for a rate adjustment based on a mid-year channel addition allowed under Section 76.922(e)(2)(iii)(C), the franchising authority has 60 days to review the requested rate. The proposed rate shall take effect at the end of this 60-day period unless the franchising authority rejects the proposed rate as unreasonable. In order to order refunds and prospective rate reductions, the franchising authority shall be subject to the requirements described in paragraph (g)(1) of this section.

(5) Notwithstanding paragraphs (a) through (f) of this section, when the franchising authority is regulating basic service tier rates, a cable operator may increase its rates for basic service to reflect the imposition of, or increase in, franchise fees. The increased rate attributable to Commission regulatory fees or franchise fees shall be subject to subsequent review and refund if the franchising authority determines that the increase in basic tier rates exceeds the increase in regulatory fees or in franchise fees allocable to the basic tier. This determination shall be appealable to the Commission pursuant to §76.944. When the Commission is regulating basic service tier rates pursuant to §76.945 or cable programming service rates pursuant to §76.960, an increase in those rates resulting from franchise fees or Commission regulatory fees shall be reviewed by the Commission pursuant to the mechanisms set forth in §76.945.

(h) If an operator files an FCC Form 1205 for the purpose of setting the rate for a new type of equipment under Section 76.923(o), the franchising authority has 60 days to review the requested rate. The proposed rate shall take effect at the end of this 60-day period unless the franchising authority rejects the proposed rate as unreasonable.

(1) If the operator's most recent rate filing was based on the system that enables them to file up to once per quarter found at Section 76.922(d), the franchising authority must issue an accounting order before the end of the 60-day period in order to order refunds and prospective rate reductions.

(2) If the operator's most recent rate filing was based on the annual rate system at Section 76.922(e), in order to order refunds and prospective rate reductions, the franchising authority shall be subject to the requirements described in paragraph (g)(1) of this section.

[58 FR 29753, May 21, 1993, as amended at 59 FR 17973, Apr. 15, 1994; 59 FR 53115, Oct. 21, 1994; 60 FR 52119, Oct. 5, 1995; 61 FR 18978, Apr. 30, 1996]

EFFECTIVE DATE NOTE: At 60 FR 52119, Oct. 5, 1995, in §76.933, paragraph (h) was added.

This amendment contains information collection and recordkeeping requirements and will not become effective until 30 days after approval has been given by the Office of Management and Budget.

§ 76.934 Small systems and small cable companies.

(a) For purposes of rules governing the reasonableness of rates charged by small systems, the size of a system or company shall be determined by reference to its size as of the date the system files with its franchising authority or the Commission the documentation necessary to qualify for the relief sought or, at the option of the company, by reference to system or company size as of the effective date of this paragraph. Where relief is dependent upon the size of both the system and the company, the operator must measure the size of both the system and the company as of the same date. A small system shall be considered affiliated with a cable company if the company holds a 20 percent or greater equity interest in the system or exercises de jure control over the system.

(b) A franchising authority that has been certified, pursuant to §76.910, to regulate rates for basic service and associated equipment may permit a small system as defined in §76.901 to certify that the small system's rates for basic service and associated equipment comply with §76.922, the Commission's substantive rate regulations.

(c) Initial regulation of small systems:

(1) If certified by the Commission, a local franchising authority may provide an initial notice of regulation to a small system, as defined by §76.901(c), on May 15, 1994. Any initial notice of regulation issued by a certified local franchising authority prior to May 15, 1994 shall be considered as having been issued on May 15, 1994.

(2) The Commission will accept complaints concerning the rates for cable programming service tiers provided by small systems on or after May 15, 1994. Any complaints filed with the Commission about the rates for a cable programming service tier provided by a small system prior to May 15, 1994 shall be considered as having been filed on May 15, 1994.

(3) A small system that receives an initial notice of regulation from its local franchising authority, or a complaint filed with the Commission for its cable programming service tier, must respond within the time periods prescribed in §§76.930 and 76.956.

(d) Statutory period for filing initial complaint: A complaint concerning a rate for cable programming service or associated equipment provided by a small system that was in effect on May 15, 1994 must be filed within 180 days from May 15, 1994.

(e) Petitions for extension of time: Small systems may obtain an extension of time to establish compliance with rate regulations provided they can demonstrate that timely compliance would result in severe economic hardship. Requests for extension of time should be addressed to the local franchising authority concerning basic service and equipment rates and to the Commission concerning rates for a cable programming service tier and associated equipment. The filing of a request for an extension of time to comply with the rate regulations will not toll the effective date of rate regulation for small systems or alter refund liability for rates that exceed permitted levels after May 15, 1994.

(f) *Small Systems Owned by Small Cable Companies.* Small systems owned by small cable companies shall have 90 days from their initial date of regulation on a tier to bring their rates for that tier into compliance with the requirements of Sections 76.922 and 76.923. Such systems shall have sixty days from the initial date of regulation to file FCC Forms 1200, 1205, 1210, 1211, 1215, 1220, 1225, 1230, and 1240 and any similar forms as appropriate. Rates established during the 90-day period shall not be subject to prior approval by franchising authorities or the Commission, but shall be subject to refund pursuant to sections 76.942 and 76.961.

(g) Alternative rate regulation agreements:

(1) Local franchising authorities, certified pursuant to §76.910, and small systems owned by small cable companies may enter into alternative rate regulation agreements affecting the basic service tier and the cable programming service tier.

(i) Small systems must file with the Commission a copy of the operative alternative rate regulation agreement within 30 days after its effective date.

(ii) [Reserved]

(2) Alternative rate regulation agreements affecting the cable programming service tier shall take into account, among other factors, the following:

(i) The rates for similarly situated cable systems offering comparable cable programming services, taking into account similarities in facilities, regulatory and governmental costs, the number of subscribers, and other relevant factors;

(ii) The rates for cable systems, if any, that are subject to effective competition;

(iii) The history of the rates for cable programming services of the system, including the relationship of such rates to changes in general consumer prices;

(iv) The rates, as a whole, for all the cable programming, cable equipment, and cable services provided by the system, other than programming provided on a per channel or per program basis;

(v) Capital and operating costs of the cable system, including the quality and costs of the customer service provided by the cable system; and

(vi) The revenues received by a cable operator from advertising from programming that is carried as part of the service for which a rate is being established, and changes in such revenues, or from other considerations obtained in connection with the cable programming services concerned. The rate agreed to in such an alternative rate regulation agreement shall be deemed to be a reasonable rate.

(3) Certified local franchising authorities shall provide a reasonable opportunity for consideration of the views of interested parties prior to finally entering into an alternative rate regulation agreement.

(4) A basic service rate decision by a certified local franchising authority made pursuant to an alternative rate regulation agreement may be appealed by an interested party to the Commission pursuant to §76.944 as if the decision were made according to §§76.922 and 76.923.

NOTE TO PARAGRAPH (g) OF §76.934: Small systems owned by small cable companies must comply with the alternative rate agreement filing requirements of §76.1805.

(h) Small system cost-of-service showings:

(1) At any time, a small system owned by a small cable company may establish new rates, or justify existing rates, for regulated program services in accordance with the small cable company cost-of-service methodology described below.

(2) The maximum annual per subscriber rate permitted initially by the small cable company cost-of-service methodology shall be calculated by adding

(i) The system's annual operating expenses to

(ii) The product of its net rate base and its rate of return, and then dividing that sum by (iii) the product of

(A) The total number of channels carried on the system's basic and cable programming service tiers and

(B) The number of subscribers. The annual rate so calculated must then be divided by 12 to arrive at a monthly rate.

(3) The system shall calculate its maximum permitted rate as described in paragraph (b) of this section by completing Form 1230. The system shall file Form 1230 as follows:

(i) Where the franchising authority has been certified by the Commission to regulate the system's basic service tier rates, the system shall file Form 1230 with the franchising authority.

(ii) Where the Commission is regulating the system's basic service tier rates, the system shall file Form 1230 with the Commission.

(iii) Where a complaint about the system's cable programming service rates is filed with the Commission, the system shall file Form 1230 with the Commission.

(4) In completing Form 1230:

(i) The annual operating expenses reported by the system shall equal the system's operating expenses allocable to its basic and cable programming service tiers for the most recent 12 month period for which the system has the relevant data readily available, adjusted for known and measurable changes occurring between the end of the 12 month period and the effective date of the rate. Expenses shall include

all regular expenses normally incurred by a cable operator in the provision of regulated cable service, but shall not include any lobbying expense, charitable contributions, penalties and fines paid one account of statutes or rules, or membership fees in social service, recreational or athletic clubs or associations.

(ii) The net rate base of a system is the value of all of the system's assets, less depreciation.

(iii) The rate of return claimed by the system shall reflect the operator's actual cost of debt, its cost of equity, or an assumed cost of equity, and its capital structure, or an assumed capital structure.

(iv) The number of subscribers reported by the system shall be calculated according to the most recent reliable data maintained by the system.

(v) The number of channels reported by the system shall be the number of channels it has on its basic and cable programming service tiers on the day it files Form 1230.

(vi) In establishing its operating expenses, net rate base, and reasonable rate of return, a system may rely on previously existing information such as tax forms or company financial statements, rather than create or recreate financial calculations. To the extent existing information is incomplete or otherwise insufficient to make exact calculations, the system may establish its operating expenses, net rate base, and reasonable rate of return on the basis of reasonable, good faith estimates.

(5) After the system files Form 1230, review by the franchising authority, or the Commission when appropriate, shall be governed by §76.933, subject to the following conditions.

(i) If the maximum rate established on Form 1230 does not exceed $1.24 per channel, the rate shall be rebuttably presumed reasonable. To disallow such a rate, the franchising authority shall bear the burden of showing that the operator did not reasonably interpret and allocate its cost and expense data in deriving its annual operating expenses, its net rate base, and a reasonable rate of return. If the maximum rate established on Form 1230 exceeds $1.24 per channel, the franchising authority shall bear such burden only if the rate that the cable operator actually seeks to charge does not exceed $1.24 per channel.

(ii) In the course of reviewing Form 1230, a franchising authority shall be permitted to obtain from the cable operator the information necessary for judging the validity of methods used for calculating its operating costs, rate base, and rate of return. If the maximum rate established in Form 1230 does not exceed $1.24 per channel, any request for information by the franchising authority shall be limited to existing relevant documents or other data compilations and should not require the operator to create documents, although the operator should replicate responsive documents that are missing or destroyed.

(iii) A system may file with the Media Bureau an interlocutory appeal from any decision by the franchising authority requesting information from the system or tolling the effective date of a system's proposed rates. The appeal may be made by an informal letter to the Chief of the Media Bureau, served on the franchising authority. The franchising authority must respond within seven days of its receipt of the appeal and shall serve the operator with its response. The operator shall have four days from its receipt of the response in which to file a reply, if desired. If the maximum rate established on Form 1230 does not exceed $1.24 per channel, the burden shall be on the franchising authority to show the reasonableness of its order. If the maximum rate established on Form 1230 exceeds $1.24 per channel, the burden shall be on the operator to show the unreasonableness of the order.

(iv) In reviewing Form 1230 and issuing a decision, the franchising authority shall determine the reasonableness of the maximum rate permitted by the form, not simply the rate which the operator intends to establish.

(v) A final decision of the franchising authority with respect to the requested rate shall be subject to appeal pursuant to §76.944. The filing of an appeal shall stay the effectiveness of the final decision pending the disposition of the appeal by the Commission. An operator

may bifurcate its appeal of a final rate decision by initially limiting the scope of the appeal to the reasonableness of any request for information made by the franchising authority. The operator may defer addressing the substantive rate-setting decision of the franchising authority until after the Commission has ruled on the reasonableness of the request for information. At its option, the operator may forego the bifurcated appeal and address both the request for documentation and the substantive rate-setting decision in a single appeal. When filing an appeal from a final rate-setting decision by the franchising authority, the operator may raise as an issue the scope of the request for information only if that request was not approved by the Commission on a previous interlocutory appeal by the operator.

(6) Complaints concerning the rates charged for a cable programming services tier by a system that has elected the small cable company cost-of-service methodology may be filed pursuant to §76.957. Upon receipt of a complaint, the Commission shall review the system's rates in accordance with the standards set forth above with respect to basic tier rates.

(7) Unless otherwise ordered by the franchising authority or the Commission, the system may establish its per channel rate at any level that does not exceed the maximum rate permitted by Form 1230, provided that the system has given the required written notice to subscribers. If the system establishes its per channel rate at a level that is less than the maximum amount permitted by the form, it may increase rates at any time thereafter to the maximum amount upon providing the required written notice to subscribers.

(8) After determining the maximum rate permitted by Form 1230, the system may adjust that rate in accordance with this paragraph. Electing to adjust rates pursuant to one of the options set forth below shall not prohibit the system from electing a different option when adjusting rates thereafter. The system may adjust its maximum permitted rate without adjusting the actual rate it charges subscribers.

(i) The system may adjust its maximum permitted rate in accordance with the price cap requirements set forth in §76.922(d).

(ii) The system may adjust its maximum permitted rate in accordance with the requirements set forth in §76.922(e) for changes in the number of channels on regulated tiers. For any system that files Form 1230, no rate adjustments made prior to the effective date of this rule shall be charged against the system's Operator's Cap and License Reserve Fee described in §76.922(e)(3).

(iii) The system may adjust its maximum permitted rate by filing a new Form 1230 that permits a higher rate.

(iv) The system may adjust its maximum permitted rate by complying with any of the options set forth in §76.922(b)(1) for which it qualifies or under an alternative rate agreement as provided in paragraph (g) of this section.

(9) In any rate proceeding before a franchising authority in which a final decision had not been issued as of June 5, 1995, a small system owned by a small cable company may elect the form of rate regulation set forth in this section to justify the rates that are the subject of the proceeding, if the system and affiliated company were a small system and small company respectively as of the June 5, 1995 and as of the period during which the disputed rates were in effect. However, the validity of a final rate decision made by a franchising authority before June 5, 1995 is not affected.

(10) In any proceeding before the Commission involving a cable programming services tier complaint in which a final decision had not been issued as of June 5, 1995, a small system owned by a small cable company may elect the form of rate regulation set forth in this section to justify rates charged prior to the adoption of this rule and to establish new rates. For purposes of this paragraph, a decision shall not be deemed final until the operator has exhausted or is time-barred from pursuing any avenue of appeal, review, or reconsideration.

(11) A system that is eligible to establish its rates in accordance with the small system cost-of-service approach shall remain eligible for so long as the

system serves no more than 15,000 subscribers. When a system that has established rates in accordance with the small system cost-of-service approach exceeds 15,000 subscribers, the system may maintain its then existing rates. After exceeding the 15,000 subscriber limit, any further rate adjustments shall not reflect increases in external costs, inflation or channel additions until the system has re-established initial permitted rates in accordance with some other method of rate regulation prescribed in this subpart.

NOTE: For rules governing small cable operators, see § 76.990 of this subpart.

[60 FR 35865, July 12, 1995, as amended at 60 FR 52120, Oct. 5, 1995; 62 FR 53576, Oct. 15, 1997; 64 FR 35950, July 2, 1999; 65 FR 53617, Sept. 5, 2000; 67 FR 13235, Mar. 21, 2002]

§ 76.935 Participation of interested parties.

In order to regulate basic tier rates or associated equipment costs, a franchising authority must have procedural laws or regulations applicable to rate regulation proceedings that provide a reasonable opportunity for consideration of the views of interested parties. Such rules must take into account the 30, 120, or 180-day time periods that franchising authorities have to review rates under § 76.933.

§ 76.936 Written decision.

(a) A franchising authority must issue a written decision in a ratemaking proceeding whenever it disapproves an initial rate for the basic service tier or associated equipment in whole or in part, disapproves a request for a rate increase in whole or in part, or approves a request for an increase in whole or in part over the objections of interested parties. A franchising authority is not required to issue a written decision that approves an unopposed existing or proposed rate for the basic service tier or associated equipment.

(b) Public notice must be given of any written decision required in paragraph (a) of this section, including releasing the text of any written decision to the public.

§ 76.937 Burden of proof.

(a) A cable operator has the burden of proving that its existing or proposed rates for basic service and associated equipment comply with 47 U.S.C. 543, and §§ 76.922 and 76.923.

(b) For an existing or a proposed rate for basic tier service or associated equipment that is within the permitted tier charge and actual cost of equipment as set forth in §§ 76.922 and 76.923, the cable operator must submit the appropriate FCC form.

(c) For an existing or a proposed rate for basic tier service that exceeds the permitted tier charge as set forth in §§ 76.922 and 76.923, the cable operator must submit a cost-of-service showing to justify the proposed rate.

(d) A franchising authority or the Commission may find a cable operator that does not attempt to demonstrate the reasonableness of its rates in default and, using the best information available, enter an order finding the cable operator's rates unreasonable and mandating appropriate relief, as specified in §§ 76.940, 76.941, and 76.942.

(e) A franchising authority or the Commission may order a cable operator that has filed a facially incomplete form to file supplemental information, and the franchising authority's deadline to rule on the reasonableness of the proposed rates will be tolled pending the receipt of such information. A franchising authority may set reasonable deadlines for the filing of such information, and may find the cable operator in default and mandate appropriate relief, pursuant to paragraph (d) of this section, for the cable operator's failure to comply with the deadline or otherwise provide complete information in good faith.

[58 FR 29753, May 21, 1993, as amended at 59 FR 17973, Apr. 15, 1994]

§ 76.938 Proprietary information.

A franchising authority may require the production of proprietary information to make a rate determination in those cases where cable operators have submitted initial rates, or have proposed rate increases, pursuant to an FCC Form 393 (and/or FCC Forms 1200/1205) filing or a cost-of-service showing. The franchising authority shall state a

justification for each item of information requested and, where related to an FCC Form 393 (and/or FCC Forms 1200/1205) filing, indicate the question or section of the form to which the request specifically relates. Upon request to the franchising authority, the parties to a rate proceeding shall have access to such information, subject to the franchising authority's procedures governing non-disclosure by the parties. Public access to such proprietary information shall be governed by applicable state or local law.

[59 FR 17973, Apr. 15, 1994]

§ 76.939 Truthful written statements and responses to requests of franchising authority.

Cable operators shall comply with franchising authorities' and the Commission's requests for information, orders, and decisions. Any information submitted to a franchising authority or the Commission in making a rate determination pursuant to an FCC Form 393 (and/or FCC Forms 1200/1205) filing or a cost-of-service showing is subject to the provisions of §1.17 of this chapter.

[68 FR 15098, Mar. 28, 2003]

§ 76.940 Prospective rate reduction.

A franchising authority may order a cable operator to implement a reduction in basic service tier or associated equipment rates where necessary to bring rates into compliance with the standards set forth in §§76.922 and 76.923

§ 76.941 Rate prescription.

A franchising authority may prescribe a reasonable rate for the basic service tier or associated equipment after it determines that a proposed rate is unreasonable.

§ 76.942 Refunds.

(a) A franchising authority (or the Commission, pursuant to §76.945) may order a cable operator to refund to subscribers that portion of previously paid rates determined to be in excess of the permitted tier charge or above the actual cost of equipment, unless the operator has submitted a cost-of-service showing which justifies the rate charged as reasonable. An operator's liability for refunds shall be based on the difference between the old bundled rates and the sum of the new unbundled program service charge(s) and the new unbundled equipment charge(s). Where an operator was charging separately for program services and equipment but the rates were not in compliance with the Commission's rules, the operator's refund liability shall be based on the difference between the sum of the old charges and the sum of the new, unbundled program service and equipment charges. Before ordering a cable operator to refund previously paid rates to subscribers, a franchising authority (or the Commission) must give the operator notice and opportunity to comment.

(b) An operator's liability for refunds in limited to a one-year period, *except that* an operator that fails to comply with a valid rate order issued by a franchising authority or the Commission shall be liable for refunds commencing from the effective date of such order until such time as it complies with such order.

(c) The refund period shall run as follows:

(1) From the date the operator implements a prospective rate reduction back in time to September 1, 1993, or one year, whichever is shorter.

(2) From the date a franchising authority issues an accounting order pursuant to §76.933(c), to the date a prospective rate reduction is issued, then back in time from the date of the accounting order to the effective date of the rules; however, the total refund period shall not exceed one year from the date of the accounting order.

(3) Refund liability shall be calculated on the reasonableness of the rates as determined by the rules in effect during the period under review by the franchising authority or the Commission.

(d) The cable operator, in its discretion, may implement a refund in the following manner:

(1) By returning overcharges to those subscribers who actually paid the overcharges, either through direct payment or as a specifically identified credit to those subscribers' bills; or

(2) By means of a prospective percentage reduction in the rates for the basic service tier or associated equipment to cover the cumulative overcharge. This shall be reflected as a specifically identified, one-time credit on prospective bills to the class of subscribers that currently subscribe to the cable system.

(e) Refunds shall include interest computed at applicable rates published by the Internal Revenue Service for tax refunds and additional tax payments.

(f) Once an operator has implemented a rate refund to subscribers in accordance with a refund order by the franchising authority (or the Commission, pursuant to paragraph (a) of this section), the franchising authority must return to the cable operator an amount equal to that portion of the franchise fee that was paid on the total amount of the refund to subscribers. The franchising authority must promptly return the franchise fee overcharge either in an immediate lump sum payment, or the cable operator may deduct it from the cable system's future franchise fee payments. The franchising authority has the discretion to determine a reasonable repayment period, but interest shall accrue on any outstanding portion of the franchise fee starting on the date the operator has completed implementation of the refund order. In determining the amount of the refund, the franchise fee overcharge should be offset against franchise fees the operator holds on behalf of the franchising authority for lump sum payment. The interest rate on any refund owed to the operator presumptively shall be 11.25%.

[58 FR 29753, May 21, 1993, as amended at 58 FR 46736, Sept. 2, 1993; 59 FR 17974, Apr. 15, 1994; 60 FR 52120, Oct. 5, 1995]

§ 76.943 Fines.

(a) A franchising authority may impose fines or monetary forfeitures on a cable operator that does not comply with a rate decision or refund order directed specifically at the cable operator, provided the franchising authority has such power under state or local laws.

(b) If a cable operator willfully fails to comply with the terms of any franchising authority's order, decision, or request for information, as required by § 76.939, the Commission may, in addition to other remedies, impose a forfeiture pursuant to section 503(b) of the Communications Act of 1934, as amended, 47 U.S.C. 503(b).

(c) A cable operator shall not be subject to forfeiture because its rate for basic service or equipment is determined to be unreasonable.

[58 FR 29753, May 21, 1993, as amended at 59 FR 17974, Apr. 15, 1994]

§ 76.944 Commission review of franchising authority decisions on rates for the basic service tier and associated equipment.

(a) The Commission shall be the sole forum for appeals of decisions by franchising authorities on rates for the basic service tier or associated equipment involving whether or not a franchising authority has acted consistently with the Cable Act or §§ 76.922 and 76.923. Appeals of ratemaking decisions by franchising authorities that do not depend upon determining whether a franchising authority has acted consistently with the Cable Act or §§ 76.922 and 76.923, may be heard in state or local courts.

(b) Any participant at the franchising authority level in a ratemaking proceeding may file an appeal of the franchising authority's decision with the Commission within 30 days of release of the text of the franchising authority's decision as computed under § 1.4(b) of this chapter. Appeals shall be served on the franchising authority or other authority that issued the rate decision. Where the state is the appropriate decisionmaking authority, the state shall forward a copy of the appeal to the appropriate local official(s). Oppositions may be filed within 15 days after the appeals is filed, and must be served on the party(ies) appealing the rate decision. Replies may be filed 7 days after the last day for oppositions and shall be served on the parties to the proceeding.

(c) An operator that uses the annual rate adjustment method under Section 76.922(e) may include in its next true up under Section 76.922(e)(3) any amounts to which the operator would have been

entitled but for a franchising authority decision that is not upheld on appeal.

[58 FR 29753, May 21, 1993, as amended at 59 FR 17974, Apr. 15, 1994; 60 FR 52121, Oct. 5, 1995]

§ 76.945 Procedures for Commission review of basic service rates.

(a) Upon assumption of rate regulation authority, the Commission will notify the cable operator and require the cable operator to file its basic rate schedule with the Commission within 30 days, with a copy to the local franchising authority.

(b) Basic service and equipment rate schedule filings for existing rates or proposed rate increases (including increases in the baseline channel change that results from reductions in the number of channels in a tier) must use the official FCC form, a copy thereof, or a copy generated by FCC software. Failure to file on the official FCC form or a copy may result in the imposition of sanctions specified in §76.937(d). Cable operators seeking to justify the reasonableness of existing or proposed rates above the permitted tier rate must submit a cost-of-service showing sufficient to support a finding that the rates are reasonable.

(c) Filings proposing annual adjustments or rates within the rates regulation standards in §§76.922 and 76.923, must be made 30 days prior to the proposed effective date and can become effective on the proposed effective date unless the Commission issues an order deferring the effective date or denying the rate proposal. Petitions opposing such filings must be filed within 15 days of public notice of the filing by the cable operator and be accompanied by a certificate that service was made on the cable operator and the local franchising authority. The cable operator may file an opposition within five days of filing of the petition, certifying to service on both the petitioner and the local franchising authority.

(d) Filings proposing a rate not within the rate regulation standards of §§76.922 and 76.923, must be made 90 days before the requested effective date. Petitions opposing such filings must be filed within 30 days of public notice of the filing, and be accompanied by a certificate that service was made on the cable operator and the local franchising authority. The cable operator may file an opposition within 10 days of the filing of the petition, and certifying that service was made on the petitioner and the local franchising authority.

[58 FR 29753, May 21, 1993, as amended at 59 FR 17974, Apr. 15, 1994]

§ 76.946 Advertising of rates.

Cable operators that advertise rates for basic service and cable programming service tiers shall be required to advertise rates that include all costs and fees. Cable systems that cover multiple franchise areas having differing franchise fees or other franchise costs, different channel line-ups, or different rate structures may advertise a complete range of fees without specific identification of the rate for each individual area. In such circumstances, the operator may advertise a ''fee plus'' rate that indicates the core rate plus the range of possible additions, depending on the particular location of the subscriber.

[59 FR 17974, Apr. 15, 1994]

§ 76.952 Information to be provided by cable operator on monthly subscriber bills.

All cable operators must provide the following information to subscribers on monthly bills:

(a) The name, mailing address and phone number of the franchising authority, unless the franchising authority in writing requests the cable operator to omit such information.

(b) The FCC community unit identifier for the cable system.

[58 FR 29753, May 21, 1993, as amended at 59 FR 17960, Apr. 15, 1994; 64 FR 35950, July 2, 1999]

§ 76.962 Implementation and certification of compliance.

(a) *Implementation.* A cable operator must implement remedial requirements, including prospective rate reductions and refunds, within 60 days from the date the Commission releases an order mandating a remedy.

(b) *Certification of compliance.* A cable operator must certify to the Commission its compliance with any Commission order mandating remedial requirements. Such certification shall:

(1) Be filed with the Commission within 90 days from the date the Commission releases an order mandating a remedy;

(2) Reference the applicable Commission order;

(3) State that the cable operator has complied fully with all provisions of the Commission's order;

(4) Include a description of the precise measures the cable operator has taken to implement the remedies ordered by the Commission; and

(5) Be signed by an authorized representative of the cable operator.

§ 76.963 Forfeiture.

(a) If any cable operator willfully fails to comply with the terms of any Commission order, including an order mandating remedial requirements after a finding of unreasonable cable programming service or equipment rates, or any Commission rule, the Commission may, in addition to other remedies, impose a forfeiture pursuant to Section 503(b) of the Communications Act of 1934, as amended, 47 U.S.C. 503(b).

(b) A cable operator shall not be subject to forfeiture because its rate for cable programming service or equipment is determined to be unreasonable.

§ 76.970 Commercial leased access rates.

(a) Cable operators shall designate channel capacity for commercial use by persons unaffiliated with the operator in accordance with the requirement of 47 U.S.C. 532. For purposes of 47 U.S.C. 532(b)(1)(A) and (B), only those channels that must be carried pursuant to 47 U.S.C. 534 and 535 qualify as channels that are required for use by Federal law or regulation. For cable systems with 100 or fewer channels, channels that cannot be used due to technical and safety regulations of the Federal Government (e.g., aeronautical channels) shall be excluded when calculating the set-aside requirement.

(b) In determining whether an entity is an ''affiliate'' for purposes of commercial leased access, entities are affiliated if either entity has an attributable interest in the other or if a third party has an attributable interest in both entities.

(c) Attributable interest shall be defined by reference to the criteria set forth in Notes 1–5 to § 76.501 provided, however, that:

(1) The limited partner and LLC/LLP/RLLP insulation provisions of Note 2(f) shall not apply; and

(2) The provisions of Note 2(a) regarding five (5) percent interests shall include all voting or nonvoting stock or limited partnership equity interests of five (5) percent or more.

(d) The maximum commercial leased access rate that a cable operator may charge to programmers that predominantly transmit sales presentations or program length commercials for full-time channel placement on a tier exceeding a subscriber penetration of 50 percent is the average implicit fee for full-time channel placement on all such tier(s).

(e) The average implicit fee identified in paragraph (d) of this section for a full-time channel on a tier with a subscriber penetration over 50 percent shall be calculated by first calculating the total amount the operator receives in subscriber revenue per month for the programming on all such tier(s), and then subtracting the total amount it pays in programming costs per month for such tier(s) (the ''total implicit fee calculation''). A weighting scheme that accounts for differences in the number of subscribers and channels on all such tier(s) must be used to determine how much of the total implicit fee calculation will be recovered from any particular tier. The weighting scheme is determined in two steps. First, the number of subscribers is multiplied by the number of channels (the result is the number of ''subscriber-channels'') on each tier with subscriber penetration over 50 percent. For instance, a tier with 10 channels and 1,000 subscribers would have a total of 10,000 subscriber-channels. Second, the subscriber-channels on each of these tiers is divided by the total subscriber-channels on all such tiers. Given the percent of subscriber-channels for the particular tier, the implicit fee for the tier

is computed by multiplying the subscriber-channel percentage for the tier by the total implicit fee calculation. Finally, to calculate the average implicit fee per channel, the implicit fee for the tier must be divided by the corresponding number of channels on the tier. The final result is the maximum rate per month that the operator may charge the leased access programmer for a full-time channel on that particular tier. The average implicit fee shall be calculated by using all channels carried on any tier exceeding 50 percent subscriber penetration (including channels devoted to affiliated programming, must-carry and public, educational and government access channels). In the event of an agreement to lease capacity on a tier with less than 50 percent penetration, the average implicit fee should be determined on the basis of subscriber revenues and programming costs for that tier alone. The license fees for affiliated channels used in determining the average implicit fee shall reflect the prevailing company prices offered in the marketplace to third parties. If a prevailing company price does not exist, the license fee for that programming shall be priced at the programmer's cost or the fair market value, whichever is lower. The average implicit fee shall be based on contracts in effect in the previous calendar year. The implicit fee for a contracted service may not include fees, stated or implied, for services other than the provision of channel capacity (e.g., billing and collection, marketing, or studio services).

(f) The maximum commercial leased access rate that a cable operator may charge for full-time channel placement as an a la carte service is the highest implicit fee on an aggregate basis for full-time channel placement as an a la carte service.

(g) The highest implicit fee on an aggregate basis for full-time channel placement as an a la carte service shall be calculated by first determining the total amount received by the operator in subscriber revenue per month for each non-leased access a la carte channel on its system (including affiliated a la carte channels) and deducting the total amount paid by the operator in programming costs (including license and copyright fees) per month for programming on such individual channels. This calculation will result in implicit fees determined on an aggregate basis, and the highest of these implicit fees shall be the maximum rate per month that the operator may charge the leased access programmer for placement as a full-time a la carte channel. The license fees for affiliated channels used in determining the highest implicit fee shall reflect the prevailing company prices offered in the marketplace to third parties. If a prevailing company price does not exist, the license fee for that programming shall be priced at the programmer's cost or the fair market value, whichever is lower. The highest implicit fee shall be based on contracts in effect in the previous calendar year. The implicit fee for a contracted service may not include fees, stated or implied, for services other than the provision of channel capacity (e.g., billing and collection, marketing, or studio services). Any subscriber revenue received by a cable operator for an a la carte leased access service shall be passed through to the leased access programmer.

(h) The maximum commercial leased access rate that a cable operator may charge for part-time channel placement shall be determined by either prorating the maximum full-time rate uniformly, or by developing a schedule of and applying different rates for different times of the day, provided that the total of the rates for a 24-hour period does not exceed the maximum daily leased access rate.

(i) The maximum commercial leased access rate that a cable operator may charge for full-time channel placement, except to programmers that predominantly transmit sales presentations or program length commercials, is the lower of the marginal implicit fee for a full-time channel placement on the tier where the leased access programming will be placed or $0.10 per subscriber per month.

(j)(1)(i) The marginal implicit fee identified in paragraph (i) of this section for a full-time channel shall be calculated by first determining the mark-up of the tier where the leased access programming will be placed.

The mark-up is calculated by determining the total amount the operator receives in subscriber revenue per month for the tier, and dividing by the total amount it pays in affiliation fees for the channels located on the tier. The resulting figure is the mark-up. In cases where the cost and channels of one tier are implicitly incorporated into a larger tier, the larger tier price is equal to the larger tier price minus the smaller tier price and the channels on the larger tier are those that are not available on the smaller tier.

(ii) The monthly gross subscriber revenue per channel is obtained by multiplying the monthly per subscriber affiliation fee for each channel by the mark-up for the tier. The net subscriber revenue per channel per month for each channel is the difference between the monthly gross subscriber revenue per channel and the monthly per subscriber affiliation fee paid for that channel by the cable operator. This value represents the implicit fee for the individual channel.

(iii) To determine the marginal channels on the tier for systems with 55 or more activated channels, multiply the number of non-mandated channels on the tier by 0.15 and round to the nearest number. To determine the marginal channels on the tier for systems with 54 or less activated channels, multiply the number of non-mandated channels on the tier by 0.10 and round to the nearest number. That is the number of marginal channels. Next identify the channels with the lowest implicit fee until that number is reached. These are the marginal channels.

(iv) Finally, calculate the marginal implicit fee by taking the mean of the implicit fees of the marginal channels by summing the implicit fees of the marginal channels and dividing by the number of marginal channels. The result is the marginal implicit fee.

(2) The affiliation fees for channels used in determining the marginal implicit fee are the contractual license fee or retransmission consent fee representing the compensation per subscriber per month paid to the programmer for the right to carry the programming. It excludes fees for services other than the provision of channel capacity, such as marketing, and excludes revenues. The affiliation fees for channels used in determining the marginal implicit fee shall reflect the prevailing affiliation fees offered in the marketplace to third parties. If a prevailing affiliation fee does not exist, the affiliation fee for that programming shall be priced at the programmer's cost or the fair market value, whichever is lower. The marginal implicit fee calculation shall be based on affiliation fees in contracts in effect in the previous calendar year. The implicit fee for a contracted service may not include fees, stated or implied, for services other than the provision of channel capacity (e.g., billing and collection, marketing, or studio services).

(3) Operators shall maintain, for Commission inspection, sufficient supporting documentation to justify the scheduled rates, including supporting contracts, calculations of the implicit fees, and justifications for all adjustments.

(4) Cable operators are permitted to negotiate rates below the maximum permitted rates.

[73 FR 10690, Feb. 28, 2008]

EFFECTIVE DATE NOTE: At 73 FR 10890, Feb. 28, 2008, § 76.970 was revised. Paragraph (j)(3) of this section contains information collection and recordkeeping requirements and will not become effective until approval has been given by the Office of Management and Budget.

§ 76.971 Commercial leased access terms and conditions.

(a)(1) Cable operators shall place leased access programmers that request access to a tier actually used by most subscribers on any tier that has a subscriber penetration of more than 50 percent, unless there are technical or other compelling reasons for denying access to such tiers.

(2) Cable operators shall be permitted to make reasonable selections when placing leased access channels at specific channel locations. The Commission will evaluate disputes involving channel placement on a case-by-case basis and will consider any evidence that an operator has acted unreasonably in this regard.

(3) On systems with available leased access capacity sufficient to satisfy

current leased access demand, cable operators shall be required to accommodate as expeditiously as possible all leased access requests for programming that is not obscene or indecent. On systems with insufficient available leased access capacity to satisfy current leased access demand, cable operators shall be permitted to select from among leased access programmers using objective, content-neutral criteria.

(4) Cable operators that have not satisfied their statutory leased access requirements shall accommodate part-time leased access requests as set forth in this paragraph. Cable operators shall not be required to accept leases for less than one half-hour of programming. Cable operators may accommodate part-time leased access requests by opening additional channels for part-time use or providing comparable time slots on channels currently carrying leased or non-leased access programming. The comparability of time slots shall be determined by objective factors such as day of the week, time of day, and audience share. A cable operator that is unable to provide a comparable time slot to accommodate a part-time programming request shall be required to open an additional channel for part-time use unless such operator has at least one channel designated for part-time leased access use that is programmed with less than 18 hours of part-time leased access programming every day. However, regardless of the availability of partially programmed part-time leased access channels, a cable operator shall be required to open an additional channel to accommodate any request for part-time leased access for at least eight contiguous hours, for the same time period every day, for at least a year. Once an operator has opened a vacant channel to accommodate such a request, our other leased access rules apply. If, however, the operator has accommodated such a request on a channel already carrying an existing full-time non-leased access programmer, the operator does not have to accommodate other part-time requests of less than eight hours on that channel until all other existing part-time leased access channels are substantially filled with leased access programming.

(b) Cable operators may not apply programming production standards to leased access that are any higher than those applied to public, educational and governmental access channels.

(c) Cable operators are required to provide unaffiliated leased access users the minimal level of technical support necessary for users to present their material on the air, and may not unreasonably refuse to cooperate with a leased access user in order to prevent that user from obtaining channel capacity. Leased access users must reimburse operators for the reasonable cost of any technical support actually provided by the operator that is beyond that provided for non-leased access programmers on the system. A cable operator may charge leased access programmers for the use of technical equipment that is provided at no charge for public, educational and governmental access programming, provided that the operator's franchise agreement requires it to provide the equipment and does not preclude such use, and the equipment is not being used for any other non-leased access programming. Cable operators that are required to purchase technical equipment in order to accommodate a leased access programmer shall have the option of either requiring the leased access programmer to pay the full purchase price of the equipment, or purchasing the equipment and leasing it to the leased access programmer at a reasonable rate. Leased access programmers that are required to pay the full purchase price of additional equipment shall have all rights of ownership associated with the equipment under applicable state and local law.

(d) Cable operators may require reasonable security deposits or other assurances from users who are unable to prepay in full for access to leased commercial channels. Cable operators may impose reasonable insurance requirements on leased access programmers. Cable operators shall bear the burden of proof in establishing reasonableness.

(e) Cable operators may not set terms and conditions for commercial leased access use based on content, *except:*

(1) To the limited extent necessary to establish a reasonable price for the commercial use of designated channel capacity by an unaffiliated person; or

(2) To comply with 47 U.S.C. 532 (h), (j) and § 76.701.

(f)(1) A cable operator shall provide billing and collection services for commercial leased access cable programmers, unless the operator demonstrates the existence of third party billing and collection services which in terms of cost and accessibility, offer leased access programmers an alternative substantially equivalent to that offered to comparable non-leased access programmers.

(2) If an operator can make the showing required in paragraph (f)(1) of this section, it must, to the extent technically feasible make available data necessary to enable a third party to bill and collect for the leased access user.

(g) Cable operators shall not unreasonably limit the length of leased access contracts. The termination provisions of leased access contracts shall be commercially reasonable and may not allow operators to terminate leased access contracts without a reasonable basis.

(h) Cable operators may not prohibit the resale of leased access capacity to persons unaffiliated with the operator, but may provide in their leased access contracts that any sublessees will be subject to the non-price terms and conditions that apply to the initial lessee, and that, if the capacity is resold, the rate for the capacity shall be the maximum permissible rate.

[58 FR 29753, May 21, 1993, as amended at 61 FR 16401, Apr. 15, 1996; 62 FR 11381, Mar. 12, 1997]

§ 76.972 Customer service standards.

(a)(1) A cable system operator shall maintain a contact name, telephone number and e-mail address on its Web site and available by telephone of a designated person to respond to requests for information about leased access channels.

(2) A cable system operator shall maintain a brief explanation of the leased access statute and regulations on its Web site.

(b) Cable system operators shall provide prospective leased access programmers with the following information within three business days of the date on which a request for leased access information is made:

(1) The cable system operator's process for requesting leased access channels;

(2) The geographic and subscriber levels of service that are technically possible;

(3) The number and location and time periods available for each leased access channel;

(4) Whether the leased access channel is currently being occupied;

(5) A complete schedule of the operator's statutory maximum full-time and part-time leased access rates;

(6) A comprehensive schedule showing how those rates were calculated;

(7) Rates associated with technical and studio costs;

(8) Whether inclusion in an electronic programming guide is available;

(9) The available methods of programming delivery and the instructions, technical requirements and costs for each method;

(10) A comprehensive sample leased access contract that includes uniform terms and conditions such as tier and channel placement, contract terms and conditions, insurance requirements, length of contract, termination provisions and electronic guide availability; and

(11) Information regarding prospective launch dates for the leased access programmer.

(c) A bona fide proposal, as used in this section, is defined as a proposal from a potential leased access programmer that includes the following information:

(1) The desired length of a contract term;

(2) The tier, channel and time slot desired;

(3) The anticipated commencement date for carriage;

(4) The nature of the programming;

(5) The geographic and subscriber level of service requested; and

(6) Proposed changes to the sample contract.

(d) All requests for leased access must be made in writing and must

specify the date on which the request was sent to the operator.

(e) A cable system operator must respond to a bona fide proposal within 10 days after receipt.

(f) A cable system operator will be subject to a forfeiture for each day it fails to comply with §76.972(a) or §76.972(e).

(g)(1) Operators of systems subject to small system relief shall provide the information required in paragraph (b) of this section within 30 calendar days of a bona fide request from a prospective leased access programmer. For these purposes, systems subject to small system relief are systems that either:

(i) Qualify as small systems under §76.901(c) and are owned by a small cable company as defined under §76.901(e); or

(ii) Have been granted special relief.

(2) Bona fide requests, as used in this section, are defined as requests from potential leased access programmers that have provided the following information:

(i) The desired length of a contract term;

(ii) The time slot desired;

(iii) The anticipated commencement date for carriage; and

(iv) The nature of the programming.

[73 FR 10691, Feb. 28, 2008]

EFFECTIVE DATE NOTE: At 73 FR 10691, Feb. 28, 2008, §76.972 was added. Paragraphs (a), (b), (c), (d), (e), and (g) of this section, which contain information collection and recordkeeping requirements, and paragraph (f), which contains requirements related to those information collection requirements, will not become effective until approval has been given by the Office of Management and Budget.

§76.975 Commercial leased access dispute resolution.

(a) Any person aggrieved by the failure or refusal of a cable operator to make commercial channel capacity available in accordance with the provisions of Title VI of the Communications Act may bring an action in the district court of the United States for the Judicial district in which the cable system is located to compel that such capacity be made available.

(b) Any person aggrieved by the failure or refusal of a cable operator to make commercial channel capacity available or to charge rates for such capacity in accordance with the provisions of Title VI of the Communications Act, or our implementing regulations, §§76.970, 76.971, and 76.972 may file a petition for relief with the Commission.

(c) A petition must contain a concise statement of the facts constituting a violation of the statute or the Commission's rules, the specific statute(s) or rule(s) violated, and certify that the petition was served on the cable operator.

(d) The petition must be filed within 60 days of the alleged violation. The time limit on filing complaints will be suspended if the complainant files a notice with the Commission prior to the expiration of the filing period, stating that it seeks an extension of the filing deadline in order to pursue active negotiations with the cable operator, and the cable operator agrees to the extension.

(e) *Discovery*. In addition to the general pleading and discovery rules contained in §76.7 of this part, parties to a leased access complaint may serve requests for discovery directly on opposing parties, and file a copy of the request with the Commission. The respondent shall have the opportunity to object to any request for documents that are not in its control or relevant to the dispute. Such request shall be heard, and determination made, by the Commission. Until the objection is ruled upon, the obligation to produce the disputed material is suspended. Any party who fails to timely provide discovery requested by the opposing party to which it has not raised an objection, or who fails to respond to a Commission order for discovery material, may be deemed in default and an order may be entered in accordance with the allegations contained in the complaint, or the complaint may be dismissed with prejudice.

(f) *Protective orders*. In addition to the procedures contained in §76.9 of this part related to the protection of confidential material, the Commission may issue orders to protect the confidentiality of proprietary information required to be produced for resolution

of leased access complaints. A protective order constitutes both an order of the Commission and an agreement between the party executing the protective order declaration and the party submitting the protected material. The Commission has full authority to fashion appropriate sanctions for violations of its protective orders, including but not limited to suspension or disbarment of attorneys from practice before the Commission, forfeitures, cease and desist orders, and denial of further access to confidential information in Commission proceedings.

(g) The cable operator or other respondent will have 30 days from the filing of the petition to file a response. To the extent that a cable operator expressly references and relies upon a document or documents in asserting a defense or responding to a material allegation, such document or documents shall be included as part of the response. If a leased access rate is disputed, the response must show that the rate charged is not higher than the maximum permitted rate for such leased access, and must be supported by the affidavit of a responsible company official. If, after a response is submitted, the staff finds a prima facie violation of our rules, the staff may require a respondent to produce additional information, or specify other procedures necessary for resolution of the proceeding.

(h)(1) The Media Bureau will resolve a leased access complaint within 90 days of the close of the pleading cycle.

(2) The Media Bureau, after consideration of the pleadings, may grant the relief requested, in whole or in part, including, but not limited to ordering refunds, injunctive measures, or forfeitures pursuant 47 U.S.C. 503, denying the petition, or issuing a ruling on the petition or dispute.

(3) To be afforded relief, the petitioner must show by clear and convincing evidence that the cable operator has violated the Commission's leased access provisions in 47 U.S.C. 532 or §76.970, §76.971, or §76.972, or otherwise acted unreasonably or in bad faith in failing or refusing to make capacity available or to charge lawful rates for such capacity to an unaffiliated leased access programmer.

(4) As part of the remedy phase of the leased access complaint process, the Media Bureau will have discretion to request that the parties file their best and final offer for the prices, terms, or conditions in dispute. The Commission will have the discretion to adopt one of the proposals or choose to fashion its own remedy.

(i) During the pendency of a dispute, a party seeking to lease channel capacity for commercial purposes, shall comply with the rates, terms and conditions prescribed by the cable operator, subject to refund or other appropriate remedy.

[58 FR 29753, May 21, 1993, as amended at 62 FR 11382, Mar. 12, 1997; 73 FR 10692, Feb. 28, 2008]

EFFECTIVE DATE NOTE: At 73 FR 10692, Feb. 28, 2008, in §76.975, paragraphs (b) through (g) were revised, paragraph (h) was redesignated as paragraph (i) and a new paragraph (h) was added. Paragraphs (d), (e),(g), and (h)(4) of this section, which contain information collection and recordkeeping requirements, and paragraphs (b), (c), and (f), which contains requirements related to those information collection requirements, will not become effective until approval has been given by the Office of Management and Budget.

§76.977 Minority and educational programming used in lieu of designated commercial leased access capacity.

(a) A cable operator required by this section to designate channel capacity for commercial use pursuant to 47 U.S.C. 532, may use any such channel capacity for the provision of programming from a qualified minority programming source or from any qualified educational programming sources, whether or not such source is affiliated with cable operator. The channel capacity used to provide programming from a qualified minority programming source or from any qualified educational programming source pursuant to this section may not exceed 33 percent of the channel capacity designated pursuant to 47 U.S.C. 532 and must be located on a tier with more than 50 percent subscriber penetration.

(b) For purposes of this section, a qualified minority programming source is a programming source that devotes substantially all of its programming to coverage of minority viewpoints, or to

programming directed at members of minority groups, and which is over 50 percent minority-owned.

(c) For purposes of this section, a qualified educational programming source is a programming source that devotes substantially all of its programming to educational or instructional programming that promotes public understanding of mathematics, the sciences, the humanities, or the arts and has a documented annual expenditure on programming exceeding $15 million. The annual expenditure on programming means all annual costs incurred by the programming source to produce or acquire programs which are scheduled to be televised, and specifically excludes marketing, promotion, satellite transmission and operational costs, and general administrative costs.

(d) For purposes of paragraphs (b) and (c) of this section, *substantially all* means that 90% or more of the programming offered must be devoted to minority or educational purposes, as defined in paragraphs (b) and (c) of this section, respectively.

(e) For purposes of paragraph (b) of this section, ''minority'' is defined as in 47 U.S.C. 309(i)(3)(c)(ii) to include Blacks, Hispanics, American Indians, Alaska Natives, Asians and Pacific Islanders.

[58 FR 29753, May 21, 1993, as amended at 62 FR 11382, Mar. 12, 1997]

§ 76.978 Leased access annual reporting requirement.

(a) Each cable system shall submit a Leased Access Annual Report with the Commission on a calendar year basis, no later than April 30th following the close of each calendar year, which provides the following information for the calendar year:

(1) The number of commercial leased access channels provided by the cable system.

(2) The channel number and tier applicable to each commercial leased access channel.

(3) The rates the cable system charges for full-time and part-time leased access on each leased access channel.

(4) The cable system's calculated maximum commercial leased access rate and actual rates.

(5) The programmers using each commercial leased access channel and whether each programmer is using the channel on a full-time or part-time basis.

(6) The number of requests received for information pertaining to commercial leased access and the number of bona fide proposals received for commercial leased access.

(7) Whether the cable system has denied any requests for commercial leased access and, if so, with an explanation of the basis for the denial.

(8) Whether a complaint has been filed against the cable system with the Commission or a Federal district court regarding a commercial leased access dispute.

(9) Whether any entity has sought arbitration with the cable system regarding a commercial leased access dispute.

(10) The extent to which and for what purposes the cable system uses commercial leased access channels for its own purposes.

(11) The extent to which the cable system impose different rates, terms, or conditions on commercial leased access programmers (such as with respect to security deposits, insurance, or termination provisions) with an explanation of any differences.

(12) A list and description of any instances of the cable system requiring an existing programmer to move to another channel or tier.

(b) Leased access programmers and other interested parties may file comments with the Commission in response to the Leased Access Annual Reports by May 15th.

[73 FR 10692, Feb. 28, 2008]

EFFECTIVE DATE NOTE: At 73 FR 10692, Feb. 28, 2008, §76.978 was added. This section contains information collection and recordkeeping requirements and will not become effective until approval has been given by the Office of Management and Budget.

§ 76.980 Charges for customer changes.

(a) This section shall govern charges for any changes in service tiers or equipment provided to the subscriber that are initiated at the request of a

subscriber after initial service installation.

(b) The charge for customer changes in service tiers effected solely by coded entry on a computer terminal or by other similarly simple methods shall be a nominal amount, not exceeding actual costs, as defined in paragraph (c) of this section.

(c) The charge for customers changes in service tiers or equipment that involve more than coded entry on a computer or other similarly simple method shall be based on actual cost. The actual cost charge shall be either the HSC, as defined in Section 76.923 of the rules, multiplied by the number of persons hours needed to implement the change, or the HSC multiplied by the average number of persons hours involved in implementing customer changes.

(d) A cable operator may establish a higher charge for changes effected solely by coded entry on a computer terminal or by other similarly simple methods, subject to approval by the franchising authority, for a subscriber changing service tiers more than two times in a twelve month period, except for such changes ordered in response to a change in price or channel line-up.

(e) Downgrade charges that are the same as, or lower than, upgrade charges are evidence of the reasonableness of such downgrade charges.

(f) For 30 days after notice of retiering or rate increases, a customer may obtain changes in service tiers at no additional charge.

NOTE 1 TO § 76.980: Cable operators must also notify subscribers of potential charges for customer service changes, as provided in § 76.1604.

[58 FR 29753, May 21, 1993, as amended at 65 FR 53617, Sept. 5, 2000]

§ 76.981 Negative option billing.

(a) A cable operator shall not charge a subscriber for any service or equipment that the subscriber has not affirmatively requested by name. A subscriber's failure to refuse a cable operator's proposal to provide such service or equipment is not an affirmative request for service or equipment. A subscriber's affirmative request for service or equipment may be made orally or in writing.

(b) The requirements of paragraph (a) of this section shall not preclude the adjustment of rates to reflect inflation, cost of living and other external costs, the addition or deletion of a specific program from a service offering, the addition or deletion of specific channels from an existing tier or service, the restructuring or division of existing tiers of service, or the adjustment of rates as a result of the addition, deletion or substitution of channels pursuant to § 76.922, provided that such changes do not constitute a fundamental change in the nature of an existing service or tier of service and are otherwise consistent with applicable regulations.

(c) State and local governments may not enforce state and local consumer protection laws that conflict with or undermine paragraph (a) or (b) of this section or any other sections of this Subpart that were established pursuant to Section 3 of the 1992 Cable Act, 47 U.S.C. 543.

[59 FR 62625, Dec. 6, 1994]

§ 76.982 Continuation of rate agreements.

During the term of an agreement executed before July 1, 1990, by a franchising authority and a cable operator providing for the regulation of basic cable service rates, where there was not effective competition under Commission rules in effect on that date, the franchising authority may regulate basic cable rates without following section 623 of the 1992 Cable Act or §§ 76.910 through 76.942. A franchising authority regulating basic cable rates pursuant to such a rate agreement is not required to file for certification during the remaining term of the agreement but shall notify the Commission of its intent to continue regulating basic cable rates.

§ 76.983 Discrimination.

(a) No Federal agency, state, or local franchising authority may prohibit a cable operator from offering reasonable discounts to senior citizens or to economically disadvantaged groups.

(1) Such discounts must be offered equally to all subscribers in the franchise area who qualify as members of

these categories, or any reasonable subcategory thereof.

(2) For purposes of this section, members of economically disadvantaged groups are those individuals who receive federal, state or local welfare assistance.

(b) Nothing herein shall preclude any Federal agency, state, or local franchising authority from requiring and regulating the reception of cable service by hearing impaired individuals.

§ 76.984 Geographically uniform rate structure.

(a) The rates charged by cable operators for basic service, cable programming service, and associated equipment and installation shall be provided pursuant to a rate structure that is uniform throughout each franchise area in which cable service is provided.

(b) This section does not prohibit the establishment by cable operators of reasonable categories of service and customers with separate rates and terms and conditions of service, within a franchise area.

(c) This section does not apply to:

(1) A cable operator with respect to the provision of cable service over its cable system in any geographic area in which the video programming services offered by the operator in that area are subject to effective competition, or

(2) Any video programming offered on a per channel or per program basis.

(3) Bulk discounts to multiple dwelling units shall not be subject to this section, except that a cable operator of a cable system that is not subject to effective competition may not charge predatory prices to a multiple dwelling unit. Upon a prima facie showing by a complainant that there are reasonable grounds to believe that the discounted price is predatory, the cable system shall have the burden of showing that its discounted price is not predatory.

NOTE 1 TO PARAGRAPH (c)(3): Discovery procedures for predatory pricing complaints. Requests for discovery will be addressed pursuant to the procedures specified in §76.7(f).

NOTE 2 TO PARAGRAPH (c)(3): Confidential information. Parties submitting material believed to be exempt from disclosure pursuant to the Freedom of Information Act (FOIA), 5 U.S.C. 552(b), and the Commission's rules, §0.457 of this chapter, should follow the procedures in §0.459 of this chapter and §76.9.

[59 FR 17975, Apr. 15, 1994, as amended at 61 FR 18979, Apr. 30, 1996; 64 FR 35951, July 2, 1999]

§ 76.985 Subscriber bill itemization.

(a) Cable operators may identify as a separate line item of each regular subscriber bill the following:

(1) The amount of the total bill assessed as a franchise fee and the identity of the franchising authority to which the fee is paid.

(2) The amount of the total bill assessed to satisfy any requirements imposed on the cable operator by the franchise agreement to support public, educational, or governmental channels or the use of such channels.

(3) The amount of any other fee, tax, assessment, or charge of any kind imposed by any governmental authority on the transaction between the operator and the subscriber. In order for a governmental fee or assessment to be separately identified under this section, it must be directly imposed by a governmental body on a transaction between a subscriber and an operator.

(b) The charge identified on the subscriber bill as the total charge for cable service should include all fees and costs itemized pursuant to this section.

(c) Local franchising authorities may adopt regulations consistent with this section.

FCC 329
CABLE PROGRAMMING SERVICE RATE COMPLAINT FORM
(Carefully read instructions on reverse before filling out form)

1. Complainant's Name		
Mailing Address		
City	State	ZIP Code
Daytime Telephone No. (include area code):		

2. Local Franchising Authority's Name		
Mailing Address		
City	State	ZIP Code

3. Cable Company's Name		
Mailing Address		
City	State	ZIP Code
Cable Company's FCC Community Unit Identifier (if known):		

4. Indicate whether this is the first time you have filed a complaint with the FCC or whether you are filing a corrected complaint to cure a defect in a prior complaint. CHECK ONE.

☐ First time complaint
☐ Corrected complaint

5. If you are filing a corrected complaint to cure a defect in a prior complaint, indicate the date the prior complaint was filed with the FCC and the date you received notification from the FCC that the prior complaint was defective.

	Month	Date	Year
Date prior complaint filed:			
Date you received FCC notification that the prior complaint was defective:			

6. Indicate whether you are challenging the reasonableness of: (1) a rate concerning cable programming service or associated equipment in effect on June 21, 1993; or (2) a rate increase. (See the Instructions for different filing deadlines depending on which type of complaint you are filing.) CHECK ONE.

☐ Rate in effect on June 21, 1993
☐ Rate increase

7. If you are a subscriber challenging the reasonableness of a rate increase, indicate the date you first received a bill from the cable operator reflecting the rate increase about which you are complaining.

Month	Date	Year

8. Indicate the current monthly rate for the cable programming service or associated equipment and, if you are challenging the reasonableness of a rate increase, the most recent rate in effect immediately prior to the rate increase.

	Month	Year
Current Monthly Rate: $		
Previous Monthly Rate: $		

9. In the tables below, describe the cable programming service to which the complaint is addressed and, if applicable, how it has changed. If this space is insufficient, include any additional comments on a separate page attached to this form.

List channels by name included in the service:

List channels by name deleted from the service (if any):

List channels by name added to the service (if any):

10. If you are a subscriber, you must attach two copies of your current bill reflecting the rate or rate increase about which you are complaining. NOTE: Failure to attach two copies of your current bill reflecting the rate or rate increase may result in dismissal of your complaint.
I have attached two copies of my current bill. ☐ Yes ☐ No

11. Optional: If you are a subscriber challenging the reasonableness of a rate increase, attach two copies of a previous bill (if available) reflecting the rate immediately prior to the rate increase.
I have attached two copies of my previous bill. ☐ Yes ☐ No

12. I certify that I am sending a copy of this complaint, including all attachments, to the cable company and the local franchising authority at the addresses listed above via first class mail, postage prepaid, at the same time I am sending two copies of this complaint to the FCC. NOTE: Failure to satisfy this requirement may result in dismissal of your complaint. The cable company will not be required to respond unless you send a copy of the complaint to the cable company by mail.
☐ Yes ☐ No

Date sent:	Month	Date	Year

13. I believe that the cable company's rate for the cable programming service or associated equipment described above is unreasonable because it violates the FCC's rate regulations. (CHECK BOX) ☐

14. I certify that, to the best of my knowledge, the information supplied on this form is true and correct.

Signature
Date

(Note to complainant: This complaint form will be maintained in the FCC's records under the cable company's community unit number. It will not be filed under your name.)

INSTRUCTIONS FOR FCC 328
FRANCHISING AUTHORITY CERTIFICATION

1. The Cable Television Consumer Protection and Competition Act, enacted in October 1992, changes the manner in which cable television systems that are not subject to effective competition are regulated. In general, rates for the basic service tier (the tier required as a condition of access to all other video services and containing, among other services, local broadcast station signals and public, educational, and public access channels) and associated equipment will be subject to regulation by local or state governments ("franchising authorities"). Rates for cable programming services and associated equipment (all services except basic and pay channels) will be subject to regulation by the FCC. Rates for pay channels (channels for which there is a specific per-channel or per-program charge) are not regulated.

2. Only cable systems that are not subject to effective competition may be regulated. Effective competition means that (a) fewer than 30 percent of the households in the franchise area subscribe to the cable service of a cable system; (b) the franchise area is (i) served by at least two unaffiliated multichannel video programming distributors each of which offers comparable video programming to at least 50 percent of the households in the franchise area; and (ii) the number of households subscribing to programming services offered by multichannel video programming distributors other than the largest multichannel video programming distributor exceeds 15 percent of the households in the franchise area; or (c) a multichannel video programming distributor operated by the franchising authority for that franchise area offers video programming to at least 50 percent of the households in that franchise area.

3. In order to regulate basic service tier rates, a franchising authority must be certified by the FCC. In order to be certified, a franchising authority must complete this form. **An original and one copy of the completed form and all attachments must be returned to the FCC by registered mail, return receipt requested, to the FCC at the address on the form.**

4. A copy of the form must be served on the cable operator by first-class mail on or before the date the form is sent or delivered to the FCC.

5. The franchising authority's certification will become effective 30 days after the date stamped on the postal return receipt unless otherwise notified by the Commission by that date. The franchising authority cannot begin to regulate rates, however, until it has actually adopted the required regulations (see below) and until it has notified the cable operator that it has been certified and that it has adopted the required regulations.

6. In order to be certified, franchising authorities must answer "yes" to Questions 3, 4, and 5, which are explained as follows:

7. Question 3: The franchising authority must adopt rate regulations consistent with the Commission's regulations for basic cable service. To fulfill this requirement for certification, the franchising authority may simply adopt a regulation indicating that it will follow the regulations established by the FCC.

   The franchising authority has 120 days to adopt these regulations after the time it is certified. The franchising authority may not, however, begin to regulate cable rates until after it has adopted these regulations and until it has notified the cable operator that it has been certified and has adopted the required regulations.

8. Question 4(a): The franchising authority's "legal authority" to regulate basic service must come from state law. In some states, only the state government may regulate cable rates. In those states, the state government should file this certification. Provisions in franchise agreements that prohibit rate regulation are void, and do not prevent a franchising authority from regulating the basic service tier and associated equipment.

   Question 4(b): The franchising authority must have a sufficient number of personnel to undertake rate regulation.

   A franchise authority unable to answer "yes" to questions 4(a) or 4(b) may wish to review the FCC's Report and Order in Docket 92-266, FCC 93-177 (released May 3, 1993) for further information on the establishment of alternative federal regulatory procedures.

9. Question 5: Franchising authorities must have procedural regulations allowing for public participation in rate regulation proceedings. If a franchising authority does not have these regulations already in place, it must adopt them within 120 days of certification and before it may undertake rate regulation.

10. Question 6: Most cable systems are not subject to effective competition, as defined by the Cable Act. (The definition is included above and on the form.) The franchising authority may presume that the cable system in its jurisdiction is not subject to effective competition.

    For purposes of applying the definition of effective competition (see Item 2 above), "multichannel video programming distributors" include a cable operator, a multichannel multipoint distribution service, a direct broadcast satellite service, a television receive-only satellite program distributor, a video dialtone service, and a satellite master antenna television system. A multichannel video programming distributor's services will be deemed "offered" when they are both technically and actually available. Service is "technically available" when the multichannel distributor is physically able to deliver the service to a household wishing to subscribe, with only minimal additional investment by the distributor. A service is "actually available" if subscribers in the franchise area are reasonably aware through marketing efforts that the service is available. Subscribership of those multichannel video programming distributors offering service to at least 50 percent of the households in a franchise area will be aggregated to determine whether at least 15 percent of the households in the franchise area are served by competitors. A multichannel video programming distributor must offer at least 12 channels of programming, at least one channel of which is nonbroadcast, to be found to offer "comparable" video programming.

11. This certification form must be signed by a government official with authority to act on behalf of the franchising authority.

FCC NOTICE TO INDIVIDUALS REQUIRED BY THE PRIVACY ACT AND THE PAPERWORK REDUCTION ACT

The solicitation of personal information in this form is authorized by the Communications Act of 1934, as amended. The Commission will use the information provided in this form to determine if the franchise authority should be authorized to regulate cable rates. In reaching that determination, or for law enforcement purposes, it may become necessary to refer personal information contained in this form to another government agency. All information provided in this form will be available for public inspection. Your response is required to obtain the requested authority.

Public reporting burden for this collection of information is estimated to average 30 minutes, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing the burden, to the Federal Communications Commission, Records Management Division, AMD-PERS, Washington, D.C. 20554, and to the Office of Management and Budget, Paperwork Reduction Project (3060-XXXX), Washington, D.C. 20503.

THE FOREGOING NOTICE IS REQUIRED BY THE PRIVACY ACT OF 1974, P.L. 93-579, DECEMBER 31, 1975, 5 U.S.C. 522a(e)(3) AND THE PAPERWORK REDUCTION ACT OF 1980, P.L. 96-511, DECEMBER 11, 1980, 44 U.S.C. 3507.

CERTIFICATION OF FRANCHISING AUTHORITY TO REGULATE BASIC CABLE SERVICE RATES AND INITIAL FINDING OF LACK OF EFFECTIVE COMPETITION

1 Name of Franchising Authority		
Mailing Address		
City	State	ZIP Code
Telephone No. (include area code):		
Person to contact with respect to this form:		

2. a. Name (s) and address(es) of cable system(s) and associated FCC community unit identifiers within your jurisdiction. (Attach additional sheets if necessary.)

Cable System's Name		
Mailing Address		
City	State	ZIP Code
Cable System's FCC Community Unit Identifier:		

Cable System's Name		
Mailing Address		
City	State	ZIP Code
Cable System's FCC Community Unit Identifier:		

2. b. Name (s) of system(s) and associated community unit identifiers you claim are subject to regulation and with respect to which you are filing this certification. (Attach additional sheets if necessary.)

Name of System	Community Unit Identifier

Name of System	Community Unit Identifier

2. c. Have you served a copy of this form on all parties listed in 2.b.? ☐ Yes ☐ No

3. Will your franchising authority adopt (within 120 days of certification) and administer regulations with respect to basic cable service that are consistent with the regulations adopted by the FCC pursuant to 47 U.S.C. Section 543(b)? ☐ Yes ☐ No

4. With respect to the franchising authority's regulations referred to in Question 3,

a. Does your franchising authority have the legal authority to adopt them? ☐ Yes ☐ No

b. Does your franchising authority have the personnel to administer them? ☐ Yes ☐ No

5. Do the procedural laws and regulations applicable to rate regulation proceedings by your franchising authority provide a reasonable opportunity for consideration of the views of interested parties? ☐ Yes ☐ No

6. The Commission presumes that the cable system(s) listed in 2.b. is (are) not subject to effective competition. Based on the definition below, do you have reason to believe that this presumption is correct? ☐ Yes ☐ No

(Effective competition means that (a) fewer than 30 percent of the households in the franchise area subscribe to the cable service of a cable system; (b) the franchise area is (i) served by at least two unaffiliated multichannel video programming distributors each of which offers comparable video programming to at least 50 percent of the households in the franchise area; and (ii) the number of households subscribing to programming services offered by multichannel video programming distributors other than the largest multichannel video programming distributor exceeds 15 percent of the households in the franchise area; or (c) a multichannel video programming distributor operated by the franchising authority for that franchise area offers video programming to at least 50 percent of the households in that franchise area.)

FCC 328
June 1993

[58 FR 29753, May 21, 1993, as amended at 76 FR 55818, Sept. 9, 2011]

§ 76.986 "A la carte" offerings.

(a) Collective offerings of unregulated per-channel or per-program (''a la

carte'') video programming shall be regulated as CPSTs pursuant to § 76.922. For purposes of this section, ''multiplexed'' channels shall be treated as one channel.

(b) A discounted package price offered by a cable system is not unreasonable with respect to any collective offering of channels if the component channels' collective offering also have been continuously available on the system on a per channel basis since April 1, 1993.

(c) A collective offering of per channel offerings may be treated as New Product Tier if:

(1) The collective offering meets the conditions set forth in § 76.987; or

(2) The operator had reasonable grounds to believe the collective offering involving only a small number of migrated channels complied with the Commission's requirements as of the date it was first offered.

(d) In reviewing a basic service rate filing, local franchising authorities may make an initial decision addressing whether a collective offering of ''a la carte'' channels will be treated as a cable programming service tier that is an NPT under § 76.987 or a CPST that is regulated under § 76.922. The franchising authority must make this initial decision within the 30 day period established for review of basic cable rates and equipment costs in § 76.933(a), or within the first 60 days of an extended 120 day period (if the franchise authority has requested an additional 90 days) pursuant to § 76.933(b). The franchising authority shall provide notice of its decision to the cable system and shall provide public notice of its initial decision within seven days pursuant to local procedural rules for public notice. Operators or consumers may make an interlocutory appeal of the initial decision to the Commission within 14 days of the initial decision. Operators shall provide notice to franchise authorities of their decision whether or not to appeal to the Commission within this period. Consumers shall provide notice to franchise authorities of their decision to appeal to the Commission within this period.

(e) A limited initial decision under paragraph (b) of this section shall toll the time periods under § 76.933 within which local authorities must decide local rate cases. The time period shall resume running seven days after the Commission decides the interlocutory appeal, or seven days following the expiration of the period in which an interlocutory appeal pursuant to paragraph (b) of this section may be filed.

(f) A local franchising authority alternatively may decide whether a collective offering of ''a la carte'' channels will be treated as an NPT as a part of its final decision setting rates for the basic service tier. That decision may then be appealed to the Commission as provided for under § 76.945.

[59 FR 62625, Dec. 6, 1994]

§ 76.987 New product tiers.

(a) Operators may establish a category of CPSTs, referred to as ''new product tiers'' (''NPTs''), and offer these tiers to subscribers at prices they elect.

(b) In order to be eligible to offer NPTs, cable operators must meet the following conditions:

(1) Operators offering NPTs are prohibited from making fundamental changes to what they offer on their BSTs and CPSTs offerings on September 30, 1994. Operators may drop channels or move channels between BSTs and/or CPSTs or to an a la carte offering so long as the aggregation of such changes do not constitute a fundamental change in their BST or CPSTs.

(2) Operators may not drop channels that were offered on their BSTs or CPSTs on September 30, 1994 and move them to NPTs unless they wait at least two years from the date the channels were dropped from the BSTs or CPSTs. Time shifted versions, slightly altered versions or renamed versions of channels offered on BSTs and CPSTs on September 30, 1994 shall not be exempt from this restriction.

(3) Operators must market their BSTs and CPSTs so that customers should be reasonably aware that:

(i) Those tiers are being offered to the public;

(ii) The names of the channels available on those tiers; and

(iii) The price of the tiers. A subscriber may not be charged for an NPT unless the cable operator has obtained

the subscriber's affirmative consent. Changes to the fundamental nature of an NPT must be approved by subscribers in accordance with § 76.981.

(4) Operators may not require the subscription to any tier, other than a BST, as a condition for subscribing to an NPT and operators may not require subscription to an NPT as a condition for subscribing to a CPST. These restrictions will not apply to cable operators prior to October 5, 2002, if such operators lack the capacity to offer BSTs and NPTs without also providing other intermediate tiers of service as provided in § 76.900(c).

(c) Operators may offer the same service on NPTs as are on one or more BSTs or CPSTs. A channel that occupied a CPST or BST part-time on September 30, 1994 also may be offered full-time on an NPT as long as it continues to be offered at least part-time on CPST or BST, under substantially the same conditions as before it was offered on the NPT. If a channel occupies a BST or CPST (regulated pursuant to § 76.922) full-time on September 30, 1994, and is subsequently reduced to part-time on the BST or CPST, that channel may not be offered on an NPT full-time. Operators that offer a channel both on an NPT and a BST or CPST will have a continuing obligation to ensure that subscribers are aware that the channels are available on the CPST or BST.

(d) Operators may temporarily place new channels on CPSTs for marketing purposes and then move them to NPTs. In order for an operator to move a channel from a CPST to an NPT pursuant to this paragraph, the channel must not have been offered on a BST or CPST prior to October 1, 1994.

(e) After initially electing to offer an NPT, a cable operator may cease to provide the NPT, upon proper notice to subscribers pursuant to § 76.1603. If an operator drops an NPT and subsequently determines to reestablish that tier, at the time of the reestablishment it must comply with the conditions for offering NPTs set forth in paragraph (b) of this section.

(f) If the Commission receives a complaint about an NPT, the operator need not file the rate justification provided in § 76.956, but shall within the time period provided by that rule file documentation that the NPT meets all the conditions set forth in this section.

NOTE 1 TO § 76.987: Cable operators offering a NPT must comply with the notice requirement of § 76.1605.

[59 FR 62625, Dec. 6, 1994, as amended at 65 FR 53617, Sept. 5, 2000]

§ 76.990 Small cable operators.

(a) Effective February 8, 1996, a small cable operator is exempt from rate regulation on its cable programming services tier, or on its basic service tier if that tier was the only service tier subject to rate regulation as of December 31, 1994, in any franchise area in which that operator services 50,000 or fewer subscribers.

(b) *Procedures.* (1) A small cable operator, may certify in writing to its franchise authority at any time that it meets all criteria necessary to qualify as a small operator. Upon request of the local franchising authority, the operator shall identify in writing all of its affiliates that provide cable service, the total subscriber base of itself and each affiliate, and the aggregate gross revenues of its cable and non-cable affiliates. Within 90 days of receiving the original certification, the local franchising authority shall determine whether the operator qualifies for deregulation and shall notify the operator in writing of its decision, although this 90-day period shall be tolled for so long as it takes the operator to respond to a proper request for information by the local franchising authority. An operator may appeal to the Commission a local franchise authority's information request if the operator seeks to challenge the information request as unduly or unreasonably burdensome. If the local franchising authority finds that the operator does not qualify for deregulation, its notice shall state the grounds for that decision. The operator may appeal the local franchising authority's decision to the Commission within 30 days.

(2) Once the operator has certified its eligibility for deregulation on the basic service tier, the local franchising authority shall not prohibit the operator from taking a rate increase and shall

not order the operator to make any refunds unless and until the local franchising authority has rejected the certification in a final order that is no longer subject to appeal or that the Commission has affirmed. The operator shall be liable for refunds for revenues gained (beyond revenues that could be gained under regulation) as a result of any rate increase taken during the period in which it claimed to be deregulated, plus interest, in the event the operator is later found not to be deregulated. The one-year limitation on refund liability will not be applicable during that period to ensure that the filing of an invalid small operator certification does not reduce any refund liability that the operator would otherwise incur.

(3) Within 30 days of being served with a local franchising authority's notice that the local franchising authority intends to file a cable programming services tier rate complaint, an operator may certify to the local franchising authority that it meets the criteria for qualification as a small cable operator. This certification shall be filed in accordance with the cable programming services rate complaint procedure set forth in §76.1402. Absent a cable programming services rate complaint, the operator may request a declaration of CPST rate deregulation from the Commission pursuant to §76.7.

(c) *Transition from small cable operator status.* If a small cable operator subsequently becomes ineligible for small operator status, the operator will become subject to regulation but may maintain the rates it charged prior to losing small cable operator status if such rates (with an allowance for minor variations) were in effect for the three months preceding the loss of small cable operator status. Subsequent rate increases following the loss of small cable operator status will be subject to generally applicable regulations governing rate increases.

NOTE TO §76.990: For rules governing small cable systems and small cable companies, see §76.934.

[64 FR 35951, July 2, 1999]

Subpart O—Competitive Access to Cable Programming

§76.1000 Definitions.

As used in this subpart:

(a) *Area served by cable system.* The term ''area served'' by a cable system means an area actually passed by a cable system and which can be connected for a standard connection fee.

(b) *Cognizable interests.* In applying the provisions of this subpart, ownership and other interests in cable operators, satellite cable programming vendors, satellite broadcast programming vendors, or terrestrial cable programming vendors will be attributed to their holders and may subject the interest holders to the rules of this subpart. Cognizable and attributable interests shall be defined by reference to the criteria set forth in Notes 1 through 5 to §76.501 provided, however, that:

(1) The limited partner and LLC/LLP/RLLP insulation provisions of Note 2(f) shall not apply; and

(2) The provisions of Note 2(a) regarding five (5) percent interests shall include all voting or nonvoting stock or limited partnership equity interests of five (5) percent or more.

(c) *Buying groups.* The term ''buying group'' or ''agent,'' for purposes of the definition of a multichannel video programming distributor set forth in paragraph (e) of this section, means an entity representing the interests of more than one entity distributing multichannel video programming that:

(1) Agrees to be financially liable for any fees due pursuant to a satellite cable programming, satellite broadcast programming, or terrestrial cable programming contract which it signs as a contracting party as a representative of its members or whose members, as contracting parties, agree to joint and several liability; and

(2) Agrees to uniform billing and standardized contract provisions for individual members; and

(3) Agrees either collectively or individually on reasonable technical quality standards for the individual members of the group.

(d) *Competing distributors.* The term ''competing,'' as used with respect to
